TOWN BOARD MEETING TOWN HALL, MAHOPAC, N.Y.

A Regular Meeting of the Town Board of the Town of Carmel was called to order by Supervisor Michael Cazzari on the 13th day of December 2023 at 7:04 p.m. at Town Hall, 60 McAlpin Avenue, Mahopac, New York. Members of the Town Board present by roll call were: Councilman Lombardi, Councilwoman McDonough, Councilman Schanil, and Supervisor Cazzari. Councilman Baranowski was absent from the roll call; his resignation statement noted below was read by Supervisor Cazzari.

Supervisor Cazzari noted that this would be the last voting meeting of the year. He also invited all residents to view the beautiful holiday decorations at Town Hall and thanked the Mahopac Flower Shop and Chief of Staff Ann Pasquerello for the coordinating the great work on the decorations.

The Pledge of Allegiance to the Flag was observed prior to the start of official business. A moment of silence was held to remember all of the military fighting for our safety and all of the first responders.

Supervisor Cazzari read the following resignation letter from Stephen Baranowski:

December 13, 2023

Statement by Councilman Baranowski

Dear Colleagues and Residents:

I have some important personal news to announce. I have asked Supervisor to read my statement at tonight's Board meeting.

I recently made a final decision to resign my position as Town Councilman to focus on my health and to help take care of a family member with dementia. My decision is effective immediately.

I had been wrestling with this decision for some time and it has been very difficult. With all of the challenges and issues we face as adults it is important to always put our families and our health first. This sometimes forces us to make difficult decisions as regards our priorities.

It has been a pleasure serving the people of the Town of Carmel the last few years and I am grateful for all of the support you have given me. I am very confident that my colleagues will continue to move the Town forward.

Thank you.

Stoken Barmordn

Emergency Repairs/Services

This memorandum is being presented to the Town Board to advise the Board of emergency invoices that were submitted for payment/authorization to proceed in excess of \$10,000.00 for services rendered. The following provides a brief summary of the work that was performed.

Carmel Water District 8

On November 11, 2023 Bee and Jay, the operators for CWD8, notified the Engineering Department of a water leak between the water main and curb valve. It was a determined that two (2) saddles had failed. Attached is an invoice form Kuck Excavating in the amount of \$11,233.96 to make the repair. A budget transfer request of funds to provide for this expense therefore there are sufficient funds in the budget for this expense

Carmel Sewer District 2 - Duke Rd Pump Station Pump

On February 7, 2022 Inframark the operator for the CSD 2 alerted the Engineering Department that pump located at the Duke Rd Pump station is not operating correctly.

Inframark obtained a price quote for a replacement pump and an emergency temporary pump to be installed. The temporary pump is needed as the lead time for the new pump is 12-to-16-weeks. This work was deemed an emergency as this pump, if not functioning, could cause a potential compliance issue which would cause the Town of Carmel to be in violation of our State Pollution Discharge Elimination System (SPDES) Permit. As such the Engineering Department authorized the quote for Koester Associates to purchase and install the pump and VFDs in the amount of \$28,190.00. The Board approved this via resolution on March 2, 2022.

The pump was recently delivered and installed in November of 2023. However, the pump cost an additional \$3,285.00 which will require a resolution from the Board for the difference.

Emergency Repairs/Services

Carmel Sewer District 2 – Sand filter feedwell pump

On September 5, 2023 Inframark the operator for the CSD 2 alerted the Engineering Department that another feedwell pump went out of service. Attached is an email sent to the Board regarding the emergency purchase and installation for two (2) pumps.

Per the attached the pumps were installed on November 15, 2023 and the WWTP now has three (3) out of the five (5) pumps in operation. Attached is the invoice in the amount of \$69,360.00 from All Makes Pumps and Motor Repair for the purchase and install of these pumps.

There are sufficient funds int e budget for this work.

Emergency Justification Form Town of Carmel Procurement Policy

Procurement Policy, Section VI: Emergency Procurement

Subdivision (4) of General Municipal Law §103 sets forth an exception to purchasing and bid4ing requirements for emergency situations

Department: Engineering

Verdor names: Kuck Excavating

Nature of emergency: CWD8 Emergency Saddle Repair

Estimated cost: \$11,233.96

There are three basic statutory criteria to be met in order to fall within the emergency purchase exception. State the basis for identifying an emergency purchase or service, check any that apply:

- □ The situation arose out of an accident or unforeseen occurrence or condition.
- Public buildings, public property, or the life, health, safety or property of the political sub-division's residents were affected.
- ☐ The situation required immediate action, which could not await competitive bidding.

The emergency purchases or services exceeded \$10,000 and will be submitted to the Fown Board for presentation at a Town Board Meeting to acknowledge said emergency. A Town Board Resolution should be passed acknowledging the same.

Re:

Emergency Repairs/Services

This memorandum is being presented to the Town Board to advise the Board of emergency invoices that were submitted for payment/authorization to proceed in excess of \$10,000.00 for services rendered. The following provides a brief a summary of the work that was performed.

Carmel Sewer District 2 - Duke Rd Pump Station Pump

On February 7, 2022 Inframark the operator for the CSD 2 alerted the Engineering Department that pump located at the Duke Rd Pump station is not operating correctly. Inframark obtained a price quote for a replacement pump and an emergency temporary pump to be installed. The temporary pump is needed as the lead time for the new pump is

This work was deemed an emergency as this pump, if not functioning, could cause a potential compliance issue which would cause the Town of Carmel to be in violation of our State Pollution Discharge Elimination System (SPDES) Permit. As such the Engineering Department authorized the quote for Koester associates purchase and install the pump and VFDs in the amount of \$28,190.00.

Currently there are sufficient funds in the 2021 operating budget for this pump.

We request that this memorandum be put into the agenda as a matter of record.

REQUEST FOR PURCHASE OR REPAIR

Inframark, LLC 2 Remvick Street Newburgh, NY 1255 United States

T: +1 845 228 0480 www.lnframark.com

Date of Request: 2-7-22 Emergency Request

Item requested: Duke Rd. pump station pump and VFD replacement – this has become an emergency as the only remaining pump is now close to failure. This request was submitted last fall and resubmitted in January of this year.

Purpose of item: This is a critical, priority request for replacement of pump and VFD for pump station. The existing pump had to be rebuilt in 2018 and now has failed again. It was looked at for reconditioning but is still not working properly. The new pump should have a better life expectancy.

We need to go with Koester Associates, Inc. Their quote, while higher, includes rental of a temporary pump while waiting for the new pump to arrive, a VFD, and other required items that are not included in the quote from Reiner Pump Systems. Reiner is not able to supply those items. A third quote was not available as this is a specialized pump that is difficult to locate.

Estimated age of equipment to be replaced / repaired: 8 years

Estimated life expectancy of new equipment / repair: 10 years

(Cont.)

Labor cost for installation and/or repair: 2 mechanics approx. 2 hours each (\$680.00 approx.) Installation of the temporary rental pump is included in Koester's quote

Supervisor Cazzari and Town Board members

Please be advised of the need for feed well pumps at the sand filters. We are now down to one pump at the facility. This is a potential compliance issue and Inframark has been directed to make the purchase as this is deemed and emergency.

There are sufficient funds to make the purchase for two (2) pumps

As we feared, another Feedwell Pump is out of service; Pump #5 broke the shaft that connects

the impeller stack to the motor assembly.

We pulled the motor assembly out but there is no way to easily remove the rest of the shaft for replacement. The entire vertical turbine pump will have to be removed and possibly replaced as an assembly

We are now left with only one of five pumps to feed filters 2 & 3. If we have any rain event or issues with the remaining pump, we will have to bypass the Sand Filters and the CMF units (so as to not foul our new membranes).

We have been waiting on a PO approval for the replacement of Pump #3. I've attached the quote from All Makes. This quote is still in good standing but is only for 1 pump. If there is any way we can get approval for 2, just double the quoted price.

This needs to be upgraded to an even greater emergency. Please advise.

Subject: Re: CSD2 Sand Filter Building - Feed well Pumps

Good Morning,

On further review it appears pump #3 is in need of an emergency replacement. We currently have very little leeway in terms of pumping capacity. If we have any further setbacks with our rema pumps, we will be nearing an overflow type scenario. Out of the five pumps currently on site, #3 appears to be one of the oldest and conditionally in the worst shape.

Pump #1 we would like to have diagnosed further by all makes pumps, their availability is about four weeks out though. We'll be having TAM pull together a quote for the replacement of pump #3 asap.

Pump #5 is currently showing signs of an overheating issue on the VFD. We would like to have Danny revisit for diagnostic purposes to see if it's an issue with the motor itself or just the connection between that pump and the VFD.

Subject: CSD2 Sand Filter Building - Feed well Pumps

Just to keep everyone in the loop.

We had to make an emergency call to Dan Owens today regarding our feed well pumps in the CSD2 SF Building. Pumps 1&3 were no longer providing any flow from the feed well. Owens was able to temporarily jump wire pumps 2&4 to run through 1&3's VFDs (as previously discussed 2&4 do not have VFDs of their own...quote pending). This will allow for auto operation of our pumps while we pursue further troubleshooting pumps 1 & 3.

For now, the sand filter building appears to be operating in auto as intended. We'll keep everyone updated as things progress.

Good Afternoon.

All Makes completed the installation of the two sand filter feed well pumps at CSD2 today. Owens was on-site as well to transfer power over from the VFDs we had temporarily jumped. While on-site Owens installed two emergency cut-off switches on two of our pumps. These were previously determined to be outside of code without these switches it was a safety hazard. As it stands he'll need to do the same on the remaining three pumps.

With the addition of these two pumps today we currently have three out five pumps operational. We'll need to order the two VFDs Owens quoted previously to get us squared away on electrical drives. This way we can take full advantage of the four working pumps and be ready for when we replace the remaining broken pump at some point in the future. Let me know if you need Owens VFD quote forwarded over again.

Once we obtain the VFD drives we should be in a fairly stable position for this stage of our

Subdivision (4) of General Municipal Law §103 sets forth an exception to purchasing and bidding requirements for emergency situations

Department: Engineering

Vendor names: All Makes Pump

Nature of emergency: Replacement of (2) Pumps

Estimated cost: \$69,360

There are three basic statutory criteria to be met in order to fall within the emergency purchase exception. State the basis for identifying an emergency purchase or service, check any that apply:

The situation arose out of an accident or unforeseen occurrence or condition.

- Public buildings, public property, or the life, health, safety or property of the political sub-division's residents were affected.
- ☐ The situation required immediate action, which could not await competitive bidding.

The emergency purchases or services exceeded \$10,000 and will be submitted to the Fown Board for presentation at a Town Board Meeting to acknowledge said emergency. A Town Board Resolution should be passed acknowledging the same.

COMMENTS/ANNOUNCEMENTS

Supervisor Cazzari announced that this would be the last Town Board Meeting of the year. The organizational meeting will be held on January 3, 2024. Town Hall will be closed on Monday, December 25th and Monday, January 1st for the holidays.

Supervisor Cazzari wished everyone a Merry Christmas, Happy Hanukkah and a Happy New Year. He again thanked Councilman Schanil for his service and stated that the town is in a better place because he served on the Board.

Councilwoman McDonough wished everyone a Merry Christmas and happy holidays. She asked everyone to be kind to one another.

Councilman Lombardi thanked Councilman Schanil, Chief of Staff Anne Pasquerello, Town Clerk Ann Spofford and Highway Superintendent Michael Simone. He said he looks forward to working with the new Highway Superintendent Michael Stern and new Councilman Robert Kearns.

Councilman Schanil acknowledged Chief of Staff Ann Pasquerello, Town Clerk Ann Spofford and Highway Superintendent Michael Simone for their many years of dedicated service.

ADJOURNMENT

All agenda items having been addressed, on motion by Councilman Schanil, seconded by Councilman Lombardi and Councilwoman McDonough, with all Town Board members present and in agreement, the meeting was adjourned at 7:55 p.m.

Respectfully submitted,

Alice Daly, Deputy Town Clerk
