## Example

### Guidelines:

- Plan must conform to the statute for plan length and reassessment (reappraisal) frequency.
- Plan chart must indicate a reappraisal in the assessment roll year of Plan Year 1.
- Plan chart should be blank after *final* reappraisal and page 1 must conform to chart.
- It is not necessary to indicate the last unit wide data collection prior to the first year of the plan in the chart; this is addressed elsewhere in the plan.

### Example:

Assessing unit conducted a unit-wide data collection in 2010. They intend to perform a reappraisal for the 2011 assessment roll, and then do another reappraisal in 2014. Inventory collection will continue to be done over a multi-year period to ensure that all parcels are physically re-inspected again over a six-year period.

**Following the guidelines above, the plan should indicate the following:**
