### **MEMORANDUM**

To: Mary Ann Maxwell, Comptroller

From: Rose Trombetta

Date: December 2, 2015

SUBJECT: USER FEE SCHEDULE FOR FISCAL YEAR 2016

Chairman Robert Laga of the ECB and Chairman John Maxwell of the Zoning Board of Appeals recommend the User Fee Schedule for fiscal year 2016 to remain the same as 2015.

### Pasquerello, Anne

From: Sent: To: Subject:	Maxwell,Mary Ann Wednesday, December 02, 2015 4:55 PM Pasquerello,Anne FW: 2nd Electric Bid	✓ Work Session 1>19/15  ☐ Agenda			
Anne, Please add this to the work session November 16, 2016 – October 31 Thanks, Mary Ann	on next weekconsider awarding of electric b	oid for 24 month period commencing			
Mary Ann Maxwell Town Comptroller Town of Carmel (845) 628-1500 ext 175 Fax (845) 628-7085 mam@ci.carmel.ny.us					
From: Alessandro Mazzotta [mailto:Alessandro.Mazzotta@putnamcountyny.gov]  Sent: Friday, November 13, 2015 2:16 PM  To: Forwarder Tony Hay; Maxwell, Mary Ann; Peter Brewster Hansen (phansen@brewstervillage-ny.gov)  Cc: Christopher Schiller (cschiller@resolutionenergygroup.com); Cynthia Jaffre  Subject: 2nd Electric Bid					
Hello,					
The County opened the 2 <sup>nd</sup> Electric Bid on November 5, 2015. We received one bid from Champion Energy. They offered the following fixed prices to commence on November 1, 2016:					
12 month at \$.07301 24 month at \$.07294 36 month at \$.07396					
It is the County's intention to award the contract for a 24 month period commencing on November 1, 2016 and ending on October 31, 2018 at the fixed rate of \$.07294 per kwh. As before, each municipality would execute separate contracts with Champion Energy with the assistance of Christopher Schiller of Resolution Energy Group.					
Please contact me with any comments or questions.					
Thanks.					
Alex					

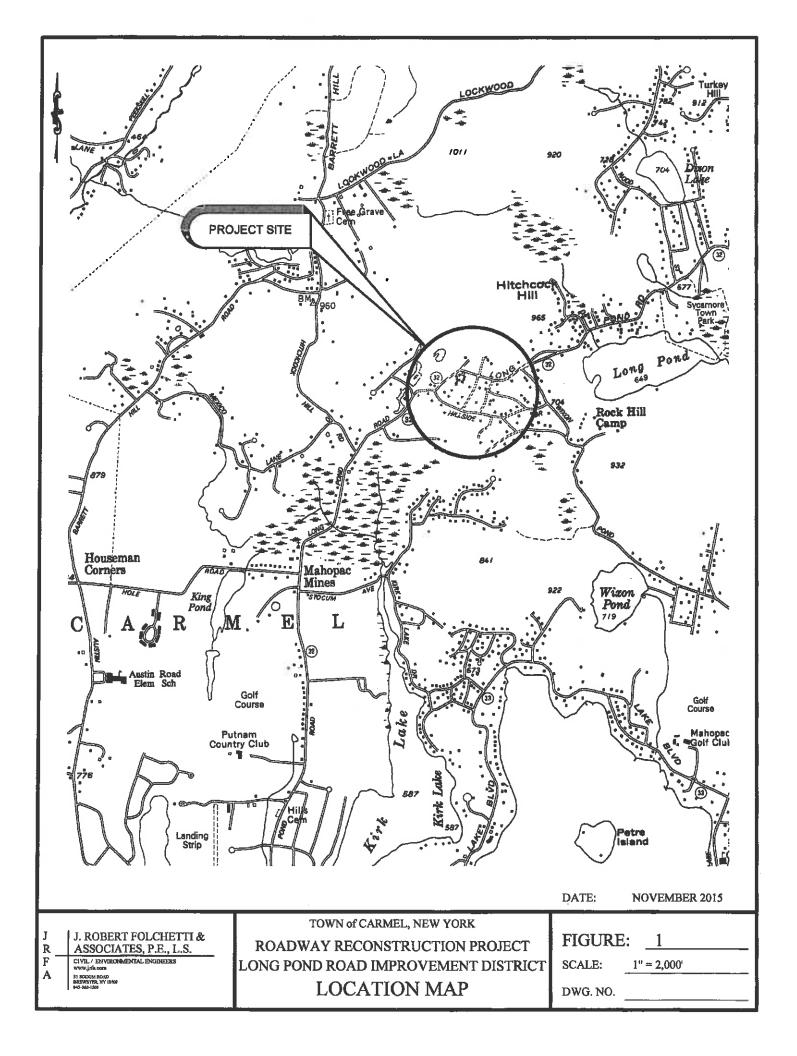

#### Short Environmental Assessment Form Part 1 - Project Information

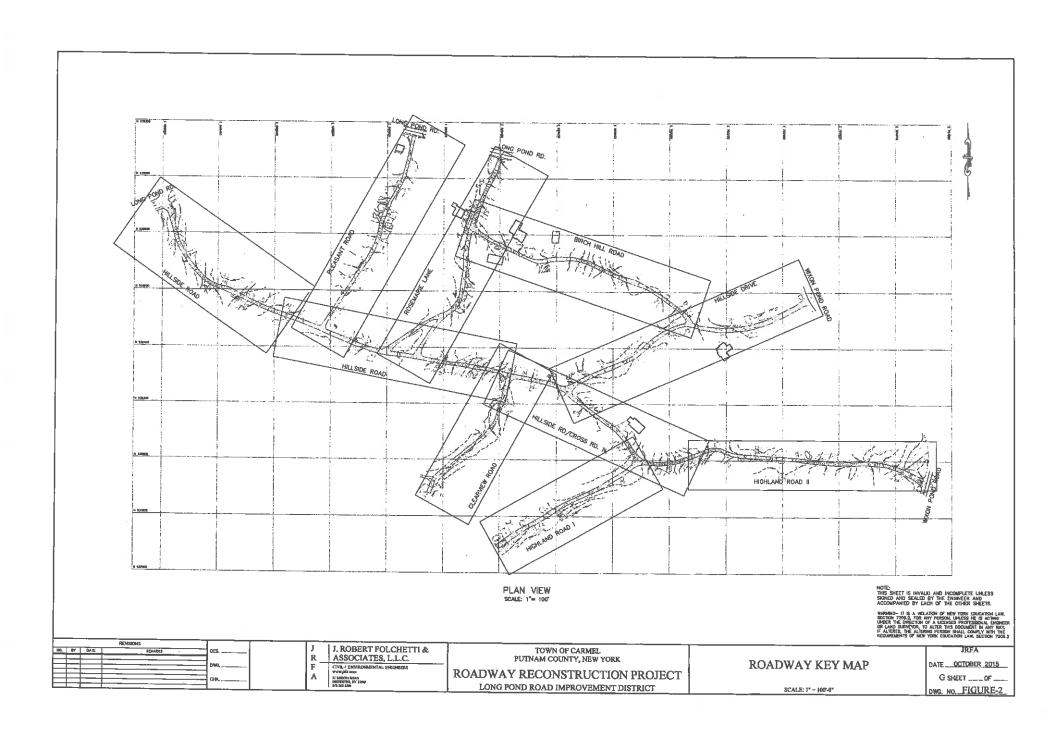

#### **Instructions for Completing**

Part 1 - Project Information. The applicant or project sponsor is responsible for the completion of Part 1. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification. Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information.

Complete all items in Part 1. You may also provide any additional information which you believe will be needed by or useful to the lead agency; attach additional pages as necessary to supplement any item.

Part 1 - Project and Sponsor Information				-

#### 1.0 BACKGROUND AND SUMMARY

The Town of Carmel is proposing to undertake a roadway reconstruction project within the limits of a recently formed town district known formerly as the Long Pond Road/Highway Improvement District. The purpose of the project is to protect and enhance the public health and welfare of residents of the Town of Carmel through the provision of traveled ways that are safer for use and passage, and that more closely conform to Town highway design standards. To achieve stated safety improvements, eight (8) existing roadways within the Long Pond Road Improvement District will be reconstructed, these include: Hillside Road, Cross Road North, Highland Road, Pleasant Road, Rosemarie Lane, Birch Hill Road, Hillside Drive and Clearview Road. The general location of respective roadways is included on Figure-1, attached.

Proposed roadway reconstruction activities will include minor modifications to the horizontal and vertical alignments of various sections of roadway and roadway widening at certain locations to improve site distances. All roads will be re-surfaced with asphaltic cement concrete (i.e., asphalt) as part of the project. At present, several of the identified roads including: Hillside Road, Cross Road North, Hillside Drive and Clearview Road are surfaced with asphalt the balance of roads including: Pleasant Road, Rosemarie Lane, and Birch Hill Road are gravel (NYSDOT Item-4) surfaced. Highland Road is asphalt surfaced to the north of Cross Road North and gravel surfaced to the south. No curbing is installed on any segment of existing roadway.

Stormwater runoff from roadways and adjacent tributary areas is conveyed in existing roadside ditches and drainage swales that direct runoff to wetland areas and surface waterbodies to the south and east. Since more conventional conveyance system components are not currently installed in the identified roads, the existing roadside ditches and drainage swales shall remain. Hillside Road contains several culvert pipes that are in a deteriorated condition, as such, these have been scheduled for replacement under this project.

Roadway re-alignment and widening activities will be completed along various sections of the following: Hillside Road, Cross Road North, Highland Road-II, Pleasant Road, Rosemarie Lane and Birch Hill Road. Nominal widening activities will be completed on Hillside Drive, with asphalt pavement re-surfacing only scheduled for Clearview Road and Highland Road. The combination of Hillside Road, Cross Road North and Highland Road-II represent one continuous thoroughfare that extends in an east to west direction from Wixon Pond Road to Long Pond Road. Under this project the respective roadways will be treated as a single thoroughfare. The total length of road scheduled for reconstruction is ±7,510 linear feet. Existing roadways widths vary from ±10 to ±18 feet. Widening activities will be completed on Hillside Road, Cross Road North and Highland Road-II to provide a minimum traveled-way width of 16 feet. Pleasant Road, Rosemarie Lane, Birch Hill Road and Hillside Drive will be widened to provide a minimum traveled-way width of 14 feet. Clearview Road and Highland Road-I will remain at their current respective traveled-way widths. The easterly end of Highland Road-II will be re-aligned to improve site distance at the Wixon Pond Road intersection. Re-alignment activities will extend the roadway on to lands owned by the NYC Department of Environmental Protection (NYCDEP). A land occupancy permit issued by NYCDEP to the Town will be required to execute respective modification to roadway alignment. Roadways included under this project are illustrated on Figure-2, attached.

Rosemarie Lane is divided into two branched segments at the southerly end. As part of the project the westerly branch of Rosemarie Lane will be closed to traffic and abandoned in place. Additionally, approximately 190 linear feet of Pleasant Road is located within 50 feet of an existing watercourse. Pleasant Road is currently a gravel road that will be re-surfaced with asphalt as part of the project. To

eliminate the introduction of a new impervious surface within 50 foot limiting distance to existing watercourse, respective section of Pleasant Road shall be re-surfaced with a pervious, pre-cast concrete modular paving system. Proposed roadway reconstruction activity statistics are summarized in Table-1, below.

	Table-1 Proposed Roadway Reconstruction Summary						
Roadway Name Roadway Length Existing Proposed Change in Change in Area Way Area							
	(linear feet)	(square feet)	(square feet)	(square feet)	(square feet)		
Hillside Rd., Cross Rd. N. & Highland Road-II	3,037	41,324	55,057	13,733	33.23%		
Pleasant Road *	771	8,971	11,555	2,584	28.80%		
Rosemarie Lane	776	14,169	12,394	-1,775	-12.53%		
Birch Hill Road	865	10,469	13,642	3,173	30.31%		
Hillside Drive	942	14,500	15,087	587	4.05%		
Clearview Road	525	6,475	6, <b>4</b> 75	0	0.00%		
Highland Road-I	592	8,689	8,689	0	0.00%		
Total	7,508	104,597	122,899 *	18,302 *	17.50% *		

<sup>\*</sup> Proposed Traveled Way Area includes ±2,910 square feet of pervious, concrete paving units on Pleasant Road.

As demonstrated in Table-1 above, the total project traveled way area will increase from  $\pm 104,597$  square feet to 122,899 square feet. Both existing and proposed traveled way areas represent impervious surface area. A portion of Pleasant Road will be re-surfaced with pervious, modular pre-cast concrete paving units to eliminate the introduction of a new impervious surface area within 50 foot limiting distance to an existing watercourse. Thus, the total impervious traveled way area will increase by approximately 15,392 square feet or 14.7%.

The aggregate watershed area, tributary to those portions of traveled way that will be expanded, measures approximately 37.26 acres (±1,623,046 sf). The proposed 15,392 square feet of expanded traveled way area represents a 0.95% increase in watershed imperviousness. With an increase of less than 1% in impervious area, the roadway reconstruction project will have a negligible impact on watershed hydrology, with no measurable change in runoff rate.

Table-2 Proposed Land Disturbance Area Summary					
Roadway Name	Area to be Disturbed for Roadway Widening/Horizontal Alignment Modifications	Vegetated Areas to be Disturbed for Re- alignment Grading Activities	Total Disturbance		
	(square feet)	(square feet)	(square feet)		
Hillside Rd., Cross Rd. N. & Highland Road-II	13,613.39	11,921.34	25,534.73		
Pleasant Road *	2,426.58	2,341.01	4,767.59		
Rosemarie Lane	1,224.47	2,778.24	4,002.71		
Birch Hill Road	3,035.71	2,813.79	5,849.50		
Hillside Drive	436.40	754.48	1,190.88		
Clearview Road	0.00	82.24	82.24		
Highland Road-l	0.00	886.92	886.92		
Total	20,836.65	21,578.02	42,414.57		

The majority of work includes asphalt re-surfacing of existing roadways with none or limited disturbance to the existing soil sub-grade. Areas of existing roadway limited to asphalt pavement re-surfacing and/or nominal changes to vertical alignment are not included in the disturbance area calculations in Table-2 above. Temporary Erosion & Sediment Control (E&SC) practices, including silt fencing and hay bale dikes, will be installed in appropriate locations prior to the start of any land disturbance activities. Erosion & Sediment Control Plan drawing sheets have been developed as part of the project engineering plans. Coverage under SPDES General Permit GP-0-15-002 will be obtained by the Town prior to the start of any land disturbance activities. To avoid conflict with the endangered "Indiana Bat" all tree clearing activities will be completed during the period of October 1st and March 31st. Disturbance to existing local wetland areas will be limited to culvert replacement and limited earth filling activities. The total disturbance to local wetland areas measures approximately ±320 square feet (0.0073 acres). All disturbance activities will occur immediately adjacent to existing roadways where maintenance of existing roadways swales is performed periodically. As such, no adverse impacts to the endangered "Bog Turtle" are anticipated. A period of 3 to 4 consecutive months is expected for completion of the proposed roadway reconstruction project.

(\*\* END OF SECTION \*\*)

5. Is the proposed action, a. A permitted use under the zoning regulations?	NO	YES	N/A
		K	
b. Consistent with the adopted comprehensive plan?		V	
6. Is the proposed action consistent with the predominant character of the existing built or natural landscape?		NO	YES

#### Short Environmental Assessment Form Part 2 - Impact Assessment

Part 2 is to be completed by the Lead Agency.

Answer all of the following questions in Part 2 using the information contained in Part 1 and other materials submitted by the project sponsor or otherwise available to the reviewer. When answering the questions the reviewer should be guided by the concept "Have my responses been reasonable considering the scale and context of the proposed action?"

		No, or small impact may occur	Moderate to large impact may occur
1.	Will the proposed action create a material conflict with an adopted land use plan or zoning regulations?	V	
2.	Will the proposed action result in a change in the use or intensity of use of land?	<b>V</b>	
3.	Will the proposed action impair the character or quality of the existing community?	V	
4.	Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?	<b>V</b>	
5.	Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?	V	
6.	Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?	<b>V</b>	
7.	Will the proposed action impact existing: a. public / private water supplies?	<b>✓</b>	
	b. public / private wastewater treatment utilities?	<b>√</b>	
8.	Will the proposed action impair the character or quality of important historic, archaeological, architectural or aesthetic resources?	<b>✓</b>	
9.	Will the proposed action result in an adverse change to natural resources (e.g., wetlands, waterbodies, groundwater, air quality, flora and fauna)?	V	
10.	Will the proposed action result in an increase in the potential for erosion, flooding or drainage problems?	<b>V</b>	
11.	Will the proposed action create a hazard to environmental resources or human health?	<b>√</b>

#### Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.  Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

Re: Position of Account Clerk

Hon. Thomas J. Jacobellis

Date: December 2, 2015

Judge Jacobellis and I would like to inform you that as of December 31, 2015 Ann Petricig will be retiring from the Justice Court in her position as Account Clerk. Ann has been with the Town 15 years and has been a great asset to our team.

We would also like to inform you that we have offered the Account Clerk position to Francine Schmansky, who is currently in the Tax Receiver's office as an Account Clerk. Fran has accepted this position knowing that it will be a lateral move at the Group 2, Step 4 salary level which is \$43,773.51.

Thank you.

November 23, 2015

Honorable Joseph Spofford Honorable Thomas Jacobellis Carmel Justice Court

Dear Judge Spofford and Judge Jacobellis,

This letter is to notify you that I am retiring from the Town of Carmel as Account Clerk in the Justice Court. December 30, 2015 will be my last day of employment.

I have enjoyed working with my coworkers and am ready to move on to the next phase in my life.

Thank you both for making my years here such a pleasure.

Sincerely,

Cenn Petring

Joseph J. Spofford, Jr.
Town Justice

## TOWN OF CARMEL HIGHWAY DEPARTMENT

#### DETAILED SPECIFICATIONS FOR WASHED SAND

- 1. These specifications cover sand for use in conducting work of the Carmel Highway Department.
- 2. The sand shall be processed in a unit that combines the functions of washing, classifying, and dehydrating. The unit shall have provisions for injecting rising currents of water that flows up through the aggregates and carries foreign particles of light weight or deleterious materials out and over a weir to waste. The material shall be dehydrated to proper condition prior to stockpiling to eliminate flushing and segregating. The resulting sand product shall be of the "Concrete Type" and suitable for use as an abrasive in winter sanding operations.
  - 3. The following is a sample gradation of the requirement for sand:

% Passing A	Approximately
	1
# 4	95
# 8	75
# 16	50
# 30	30
# 50	10
#100	3

- 4. A bid price shall be indicated for sand to be furnished and loaded F.O.B. plant during this Department's normal working hours, that is from 7:00 A.M. to 3:30 P.M., Monday through Friday.
- An alternate bid price shall be indicated for sand furnished and delivered to the Town of Carmel Highway Garage, 55 McAlpin Avenue, Mahopac, New York.
- The sand shall be delivered in such quantities and at such times as may be designated by the Carmel Highway Superintendent or his authorized representative and shall be delivered within twenty-four hours of such designation.

Bidders shall OWN plants or sources of supply to insure a continuing supply of materials throughout the contract period. A copy of NY State Department of Transportation Certificate shall accompany bid.

WASHED SAND: Pe	r Ton
F.O.B. Plant - \$ 12.00	
Delivered - \$ 18,00	

To determine the lowest bidder on F.O.B. bids, the Town of Carmel shall adjust each F.O.B. bid by adding to the bid price an amount equal to the sum obtained by multiplying \$.25 x the distance in miles between the Town of Carmel Highway Garage at 55 McAlpin Avenue, Mahopac, New York, the bidder's F.O.B. point of delivery.

ANDREW M. CUOMO Governor JOAN McDONALD Commissioner

April 09, 2015

Mr. Eric Billings Thalle Industries, Inc. 172 Route 9 Fishkill, NY 12524 Geological Source Report Status: Accepted (see note 1)

Location: Thalle Industries, Inc.

Source No. 8- 54R,RFM

Fishkill, NY

This letter does not indicate the approval status of the source or the acceptability of the material derived therefrom

Dear Mr. Billings:

The 2015 Geologic Source Report Cyclic and Annual Modules submitted for the proposed operating location noted above have been reviewed and accepted. The Geological Source Report Requirements for the 2015 season have been satisfied. However, if significant discrepancies between the report and the quarry operations are noted during field inspection, a revised report will be required. Please note there shall be no extension or alteration to the limits of the area of proposed operations without prior approval from this office.

Aggregate sources which satisfy all applicable requirements of Materials Method 29, issued July 2007 will appear on the Approved List of Sources of Fine and Coarse Aggregates. The Approved List is available on the Internet @

https://www.dot.ny.gov/divisions/engineering/technical-services/materialsbureau/fine-coarse-aggregates

If the producer or the consulting geologist have any questions regarding these matters, they may call Ms. Marilyn Bradley, or members of the staff in the Materials Bureau, Engineering Geology Section at (518) 457-1038.

Very truly yours,

Marilyn Bradley
Engineering Geology

## TOWN OF CARMEL MAHOPAC, NEW YORK 10541

#### INFORMATION FOR BIDDERS AND GENERAL SPECIFICATIONS

#### A. BIDS - GENERAL REQUIREMENTS

1. The date, time, and place of bid opening are given in the Notice to Bidders.

2. All bids received after the time stated in the Notice to Bidders will not be considered and will be returned unopened to the bidder. Whether sent by mail or by means of personal delivery, the bidder assumes responsibility for having his bid deposited on time at the place specified.

3. Any bid which fails to name a price written both in words and figures may be held to be informal and may be rejected. In case of any discrepancy between the price in

words and that in figures, the price in words will determine.

4. No charge will be allowed for Federal, State, or municipal sales and excise taxes, since the Town of Carmel is exempt from such taxes. The price bid shall not include the amount of any such tax.

5. Prices shall be net, including transportation and delivery charges fully prepaid by the successful bidder to the destination indicated in the Detailed Specifications. In any

case, title shall not pass until items have been delivered and accepted.

6. When bids are requested on a lump-sum basis, bidder must bid on each item in the lump sum group. A bidder desiring to bid "no charge" on an item in a group must so indicate; otherwise, bid for the group may be rejected.

7. All prices quoted must be "per unit" as specified; e.g., do not quote "per case" when

"per dozen" is requested; otherwise, bid may be rejected.

8. Bidder must insert the price per unit and the extensions against each item in his bid. In the event of a discrepancy between the unit price and the extension, the unit price will govern. Prices shall be extended in decimals, not fractions.

 Bids that contain any omissions, alterations, additions or items not called for in the Detailed Specifications, or that are unbalanced, incomplete or contain irregularities

of any kind, may be rejected as informal.

10. Conditional or qualified bids will not be accepted.

11. All bids must be submitted in sealed envelopes, bearing on the outside the name of bidder, his address, and the time and date set for the opening of bids.

12. All bids must be accompanied by a fully executed non-collusion statement attached hereto.

#### B. BIDS - SPECIFIC REQUIREMENTS

1. All specifications are minimum standards, and accepted bid samples do not supersede specifications for quality unless bid sample is superior, in which case deliveries must be the same identity and quality as accepted bid sample.

- 2. The Town of Carmel reserves the right to request a representative sample of the item-quoted prior to the award or prior to shipment. If the sample is not in accordance with the Detailed Specifications, the Town Board may reject the bid; or, if award has been made, cancel the contract at the expense of the successful bidder.
- 3. In all specifications, the words "or equal" are understood after each article. The decision of the Town Board as to whether an alternate or substitution is in fact equal shall be final. If bidding on items other than those specified, bidder must in every instance give the trade designation of the article, manufacturer's name, and detailed specifications of item he proposes to furnish. Otherwise, bid will be construed as submitted on the identical item as specified.
- 4. Samples, when required, must be submitted strictly in accordance with instructions; otherwise, bid may not be considered. If samples are requested subsequent to bid opening, they shall be delivered as directed for the bid to have consideration. Samples must be furnished free of charge and must be accompanied by a descriptive memorandum and invoices indicating if the bidder desires their return and specifying the address to which they are to be returned provided they have not been used or made useless by tests. Award samples may be held for comparison with deliveries. The Town of Carmel will not be responsible for any samples destroyed or mutilated by examination or testing. Samples shall be removed by the bidder at his expense. Samples not removed within fifteen (15) days after written notice to the bidder will be regarded as abandoned, and the Town of Carmel shall have the right to dispose of them as its own property.
- 5. When a specification indicates that an item to be purchased is to be equal to a sample, such sample will be on display at a designated location in the Town of Carmel. Failure on the part of the bidder to examine sample shall not entitle him to any relief from the conditions imposed in the Bid or Detailed Specifications.
- 6. Bids on equipment must be on standard, unused, new equipment, of latest model, and in current production, unless otherwise specified.
- 7. All regularly manufactured stock electrical items must bear the label of Underwriters Laboratories, Inc.
- 8. If the specifications so state, the successful bidder also may be required to furnish a performance bond equal to the full amount of the contract to guarantee the faithful performance of such contract. Such performance bond shall be maintained in full force and effect until the contract shall have been fully performed. The surety company furnishing such performance bond shall be authorized to do business in the State of New York and must be satisfactory to the Town of Carmel. The performance bond shall be executed by the successful bidder at the time of the execution of the contract by the successful bidder and the Town of Carmel.

#### C. QUALIFICATIONS OF BIDDERS

The Town of Carmel (hereinafter sometimes called the "Town") may make such investigation as it deems necessary to determine the ability and responsibility of the bidder to perform, and the bidder shall furnish to the Town all such information and data

for this purpose as the Town may request. The Town reserves the right to reject any bid if the evidence submitted by or investigation of such bidder fails to satisfy the Town that such bidder is properly qualified and has the financial ability to carry out the obligations of the contract.

#### D. AWARD OF BID

- 1. The Contract shall be awarded to the lowest responsible bidder or the proposals will be rejected within forty-five (45) days of the date of opening proposal, subject, however, to the discretionary right reserved by the Town Board to waive any informalities or to reject any or all proposals and to advertise for new proposals, if, in its opinion, the best interest of the Town will thereby be promoted.
- 2. Where a bidder is requested to submit a bid on individual items and also on a total sum or sums, the right is reserved to award contracts on individual items or on total sums, whichever is in the best interests of the Town of Carmel.
- 3. If two or more bidders submit identical bids as to price, the decision of the Town Board to award a contract to one of such identical bidders shall be final. (General Municipal Law, Section 103(1).

#### E. ADDENDA AND INTERPRETATION

- 1. Bidders are expressly notified that their proposals shall be based upon the materials and products specified. No deviation from the specifications will be considered, except as provided. No interpretation or other contract documents will be made to any bidder orally. Every request for such interpretation should be in writing addressed to: Town of Carmel Supervisor, Town Hall, 60 McAlpin Avenue; Mahopac, New York 10541.
- 2. Any such request must be received at least five (5) days prior to the date fixed for opening of bids. Any and all such interpretation and any supplemental instructions and/or drawings, which, if issued, will be in the form of addenda, mailed to all prospective bidders (at respective addresses furnished for such purposes) not later than three (3) days prior to the date fixed for the opening of bids. Failure of any bidder to receive any such addendum or interpretation shall not relieve the bidder from any obligation under his bid as submitted. All addenda so issued shall become part of the contract documents.

#### F. GENERAL OBLIGATIONS OF BIDDERS

The submission of a bid will be construed to mean that the bidder is fully informed as to the extent and character of the supplies, materials, or equipment required and a

representation that the bidder can furnish the supplies, materials, or equipment satisfactorily in complete compliance with the specifications.

#### G. PURCHASES - MUNICIPAL AND NOT FOR PROFIT ORGANIZATIONS

The Town of Carmel reserves the right to allow all municipal and not for profit organizations authorized under the General Municipal Laws of the State of New York, to purchase any goods and/or services awarded as a result of this Bid in accordance with the latest amendments to NYS GML 100 through 104. However, it is understood that the extension of such contracts are at the discretion of the vendor and the vendor is only bound to any contract between the Town of Carmel and the vendor. Additionally, the Town reserves the right to purchase any goods or services included as part of this Bid from any means legally available to it at any time.

#### H. GUARANTEES BY THE BIDDERS

- 1. The successful bidder guarantees his products against defective material or workmanship and agrees to repair or replace any damages occasioned in transit.
- 2. The successful bidder guarantees to furnish adequate protection from damage for all work and to repair damages of any kind for which he or his workmen are responsible, to the building or equipment, to his own work or to the work of other successful bidders.
- 3. The successful bidder guarantees to carry adequate insurance to protect the Town of Carmel from loss in case of accident, fire, theft, etc.
- 4. The successful bidder guarantees that all deliveries will be equal to the accepted bid sample.
- 5. The successful bidder guarantees that the equipment delivered is standard, new, has never been used, and is the latest model of regular stock product or as required by the specifications; also that no attachment or part has been substituted or applied contrary to manufacturer's recommendations and standard practice. Every unit delivered must be guaranteed against faulty material and workmanship for a period of at least one (1) year from date of delivery. If during this period such fault develops, the successful bidder agrees to replace the unit or the part affected without cost to the Town of Carmel.
- 6. The successful bidder guarantees any merchandise provided under the contract which is or becomes defective during the guarantee period shall be replaced by the successful bidder free of charge with the specific understanding that all replacements shall carry the same guarantee as the original equipment. The successful bidder shall make any such replacement immediately upon receiving notice from the Town of Carmel.

#### I.DELIVERY

- 1. Delivery must be made in accordance with the Detailed Specification. If delivery instructions do not appear, it will be interpreted to mean prompt delivery to the Town Hall, 60 McAlpin Avenue, Mahopac, New York 10541.
- 2. The Town of Carmel will not accept any deliveries on Saturdays, Sundays or legal holidays, except where the delivery is for an emergency.

- 3. Items shall be securely and properly packed for shipment, storage, and stocking in shipping-containers and according to accepted commercial practice without extra charge for packing cases, baling, or sacks.
- 4. The successful bidder shall be responsible for delivery of items in good condition at point of destination. Bidder shall file with the carrier all claims for breakage, imperfections, and other losses, which will be deducted from invoices. The Town will note for the benefit of successful bidder when packages are not received in good condition.
- 5. Unless otherwise stated in the specifications, all items must be delivered to and placed at a point within the building as directed by the shipping instruction of the agent for the Town of Carmel. The successful bidder will be required to furnish proof of delivery in every instance.
- 6. Unloading and placing of the equipment is the responsibility of the successful bidder, and the Town of Carmel accepts no responsibility for unloading and placing of equipment. Any costs incurred due to the failure of the successful bidder to comply with this requirement will be charged to him. No help for unloading will be provided by the Town of Carmel, and suppliers should notify their truckers according.

#### J. CONTRACT

#### 1. Execution

- (a) Each bid will be received with the understanding that upon the written acceptance by the Town Board of part or all of the bid, the bidder will execute a contract of purchase. Said contract of purchase will obligate the successful bidder to furnish those items accepted by the Town of Carmel in accordance with all of the provisions of the bid. Said contract of purchase shall be executed by the successful bidder within ten (10) days of the receipt by the bidder of the Town Board's written acceptance and must be immediately returned to the Town. Failure to execute the contract of purchase within said ten (10) days or to immediately return the executed contract shall cause the bid security to be forfeited, without recourse to the Town, as liquidated damages for such failure. The written acceptance of the bid will become null and void upon the expiration of said ten (10) days, and the bidder shall be deemed to have abandoned any and all rights under the bid and the contract unless the bidder has executed the contract of purchase and immediately returned same.
- (b) The placing in the mail of a notice of acceptance to a successful bidder to the address given in the bid will be considered sufficient notice of acceptance of the bid, and said acceptance will be deemed to be received by the successful bidder three (3) days after mailing.

#### 2. Performance

(a) If the successful bidder fails to deliver as ordered, or within the time specified, or within reasonable time as interpreted by the Town of Carmel, or fails to make immediate replacement of rejected articles when so requested or as directed by the Town of Carmel, the Town of Carmel may purchase from other sources to take the place of the item rejected or not delivered. The Town of Carmel reserves the right to authorize immediate purchase from other sources against rejections on any contract when necessary. On all other purchases, the successful bidder agrees

to reimburse the Town of Carmel promptly for excess costs occasioned by such purchases. Should the cost-be less, the successful-bidder shall have no claim to the difference. Such purchases will be deducted from contract quantity.

- (b) A contract may be cancelled by the Town at the successful bidder's expense upon non-performance of contract.
- (c) It is mutually understood and agreed that the successful bidder shall not assign, transfer, convey, sublet or otherwise dispose of the contract or his right, title, or interest therein, or his power to execute such contract, to any other person, company, or corporation, without the previous written consent of the Town of Carmel.

#### 3. Payments

- (a) Payment will be made only after correct presentation of a Town of Carmel Voucher with invoices attached, as may be required.
- (b) Payments of any claim shall not preclude the Town of Carmel from making claim for adjustment on any item found not to have been in accordance with the contract specifications.

#### 4. Saving Clause

The successful bidder shall not be held responsible for any losses resulting if the fulfillment of the terms of the contract shall be delayed or prevented by wars, acts of public enemies, strikes, fires, floods, acts of God, or for any other acts not within the control of the successful bidder and which by the exercise of reasonable diligence he is unable to prevent.

NOTE: NON-COLLUSIVE BIDDING STATEMENT MUST BE
SUBMITTED WITH EACH BID. THE ENCLOSED FORM, "NON-COLLUSION STATEMENT", MEETS THIS REQUIREMENT.

## BID FORM AND SPECIFICATIONS FOR

WINTER MIX
WINTER MIX: NYS OGS Group 31504, Bituminous Concrete Cold Patch
F.O.B. BIDDER'S PLANT:
ONE HOUDESD AND FOUR dollars \$ 104.00 per ton (Price per ton written in words)
THESE HUNDRED TWO DOLLARS AND FORLY \$ 302.40 per pallet (Price per pallet written in words) 60# All WEATHER PATCH 8 \$6.40 cach
Mileage Adjustment as detailed below:
THREE DOLLAIS AND SEVENTY CENTS \$ 3.70 per ton (Adjustment written in words)
PRICE ADJUSTMENT: (Escalation Clause):
In view of the energy crisis, asphalt cement prices may fluctuate. To adjust for price fluctuations, the bidder shall use \$504.00 per ton, the NYS DOT Base Average F.O.B. Terminal Price for Asphalt Cement as of October 2015.
In requesting payment, the vendor shall invoice for the number of gallons at the bid price. An additional statement on the same invoice form will designate the adjustment based on the percentage of asphalt cement in the liquid material. This will be either an additional payment to the vendor or a credit from the vendor if the asphalt cement cost F.O.B Terminals is over or under the established Base Price.
PRICE ADJUSTMENT:
Percentage of Asphalt x Adjustment Price = gallon of liquid (Adjustment Price = New FOB Terminals Price - \$504.00 Base Price)
Documentation to substantiate the price of must be submitted with the invoice.
MILEAGE ADJUSTMENT: To determine the lowest bidder on FOB bids, the Town of Carmel shall adjust each FOB bid by adding to the bid price an amount equal to the sum obtained by multiplying \$.25 x the distance in miles between the Town of Carmel Highway Garage at 55 McAlpin Avenue, Mahopac, New York, to the bidder's FOB point of delivery.

## DETAILED SPECIFICATIONS TIMBER GUIDERAIL FOR ROADSIDE PROJECTS AND MAINTENANCE

Wendors to furnish and install at specified sites, Timber or Timberclad guiderail systems, for public roadsides and bridges, meeting applicable State and Federal Standards.

#### GENERAL NOTES

The Department seeks a unit price <u>per foot</u> to supply all labor, materials, and equipment necessary to complete the work in compliance with Section 597 M of the *Standard Specifications* for Construction and Materials of the New York State Department of Transportation dated January 2, 1995 and addenda, or as detailed by these specifications.

#### DESCRIPTION OF ITEM

Roadside Timber Guide Rail is to be installed to the lines and grades given in the project drawings and shall comply with the general requirements of Box Beam Type railing, as depicted in Standard Structure Sheets 606-3R4 and as modified herein.

The rail system shall consist of a 203 mm diameter round timber rail with a 6 mm thick steel C channel (60 mm by 121 mm) embedded into and boited to the timber rail. The composite rail shall be attached to 1600 mm long \$3x5.7 steel posts set 965 mm into the soil and spaced 3000 mm on centers. Each post shall include a 203 mm by 510 mm soil plate. The above-ground section of each post shall be covered by a routed, 171 mm diameter timber post which functions like a standard guiderail block while providing an all-wood appearance to the barrier from the roadside of the installation. Nominal rail height must be 660 mm, with a maximum of 685 mm, above mean ground surface. Rail sections shall be joined using a 5 boit, 12 mm (114 mm by 685 mm) splice bar.

Rail elements shall be fabricated from pressure treated Douglas fir with an Equal to 1,000 Ksi and a Modulus of Rupture of 7,100 PSI or greater. Wood posts shall be pressure treated Red Pine No 2, with an E equal to 1,100 PSI and Fb equal to 875 PsI or greater. All Steel shall conform to ASTM A38 and be Hot Dipped Galvanized per ASTM A123. All Steel hardware shall conform to ASTM A307 and be galvanized per ASTM A153. All wood products shall be pressure treated in conformance with Section 708-31 or Section 708-32 of the NYSDoT Standard Specifications.

- 1) Ironwood guide rail, price per L.F. complete
  A. 1' 100 L.F. \$ 108.40
  B. 100' and over \$ 94.60
- 2) End terminal, type 1 timber rail complete \$ 1594.00 each
- 3) End terminal, type 11 timber rail complete \$ 2464.00 each
- 4) Anchorage unit for ironwood guide rail, back slope \$ 2464.00 each

RE: MACK GRANITE AXLE FORWARD (GU712)
SNOW PLOW. . . . . . On/Off Hwy

Thank you for the opportunity to review your current truck needs and present this proposal. The accompanying proposal has been prepared to give you the complete specifications and performance details of the unit best suited for your operations. Today, as costs continue to rise, we know you demand a truck that will be the most economical in the long run. Several factors that I believe are important in achieving this goal are:

- \* Improved Fue! Economy
- \* Reduced Maintenance
- \*Improved Productivity
- \* High Resale Value

The enclosed specifications and recommendations have been carefully designed to meet all these objectives. I think that after reviewing this proposal you will come to the same conclusion that so many operators are coming to:

"MACK Has What It Takes!!"

I look forward to meeting with you and to discuss any questions you might have regarding this proposal.

Sincerely,

Greg Angwin

Pld Code	Description	
	ORDER/CUSTOMER/VEHICLE INFORMATION	
5050011	INITIAL REGISTRATION LOCATION, UNITED STATES, NEW YORK	Opt
5340001	LANGUAGE, ENGLISH	Std
C!R0002	IDLE EMISSION CERTIFICATION, IDLE EMISSION CERTIFICATION - CARB 08	Opt
0130002	TYPE OF SERVICE, MUNICIPAL	Opt
APP0003	VEHICLE APPLICATION CLASS, HEAVY VOCATIONAL - Unlimited operation on concrete, asphalt, or	Opt
	maintained gravel/packed dirt with a maximum 3% grade; limited operation on unmaintained surfaces with	
	maximum 5% grade; limited operation on concrete, asphalt, or maintained gravel/packed dirt with maximum	
	10% grade. (3 AXLES) 78,000 lbs (35,281 kg) MAX GVW. (4 AXLES) 80,000 lbs (36,288 kg) MAX GVW.	
CAR0001	CARRIER APPLICATION, NOT AVAILABLE	Inc
0010002	VEHICLE TYPE, STRAIGHT TRUCK WITH TRAILER	Inc
0061799	VEHICLE USE AND BODY/TRAILER TYPE, SNOW PLOW On/Off Hwy	
GCW0065	65000# (29484 kg) GCW RATING	Opt
6450310	BRAKE - STOPPING DISTANCE, BRAKE REGULATION, STOPPING DISTANCE 94M (310FT)	Std
PB1017A	PRICE BOOK LEVEL, 2017A PRICE BOOK LEVEL	Std
PC10028	PRODUCT CLASS, PRODUCT CLASS 28	Opt
	OPERATING CONDITIONS	
M390001	TOPOGRAPHY, GRADES <3% GREATER THAN 98% OF DRIVING DISTANCE MAX GRADE 8%	Opt
APC0003	TRANSPORTATION CYCLE, VOCATIONAL	Std
M440010	ROAD CONDITION, WELL MAINTAINED SURFACED ROADS >95% DRIVING DISTANCE	Opt
M400001	AMBIENT TEMPERATURE UPPER LIMIT, AMBIENT TEMPERATURE HOT. WARMER THAN 104 F (40 C)	Opt
	ALLOWED UP TO 25 HOURS PER YEAR	
	BVS	
0021413	CHASSIS (BASE MODEL), GU702 4-WHEEL TRUCK	Std
PK7CB7A	CHASSIS PACKAGING SOLUTIONS, CLEAR BOC PACKAGE 7A INCLUDES: HHF Emission, B Box LH	Std
MAB0000	Rail, Air Tank(s) Under B Box - remaining on rail, Cab Mounted Exhaust REQUIRES: 72 Gallon LH	
	Sleeved Fuel Tank, Omit RH Tank,, WITHOUT FRONT AXLE SPACING	
	ENG!NE/TRANSMISSION/CLUTCH	
1001642	ENGINE, MACK MP7-365C 365 HP @1450-1700 RPM (PEAK) 1460 LB. FT. MAX. TORQUE @ 1100-1300 RPM	Opt
1364539	TRANSMISSION, 5 SPEED AUTOMATIC, ALLISON 4500-RDS-5 (4.70/0.76) RUGGED DUTY SERIES GEN	
	5 INCLUDES DIRECT MOUNT OIL, INTERNAL FILTER, AND OIL LEVEL SENSOR.	
1330000	CLUTCH, OMIT CLUTCH	Inc
	EXHAUST/EMISSIONS	
DPF0104	DPF, CLEARTECH HHF, DPF & SCR FRAME MTD, BOTH RH SIDE UNDER CAB	Inc
EAS0102	EXHAUST AFTER-TREATMENT SYSTEM, EXHAUST AFTER-TREATMENT SYSTEM DIESEL PARTIC	Std
	FILTER CERAMIC PASSIVE REGEN	
1305101	EXHAUST, EXHAUST - CLEAR BOC, SINGLE (R/S) VERT EXHAUST CAB MOUNTED, LOWER VENTUR!	Opt
	DIFFUSER, TURNED END	- 7-
0100002	SINGLE, BRIGHT FINISH HEAT SHIELD, STACK AND SCR COVER	Opt
B600004	FURNISH STEEL PAINTED HEAT SHIELD FOR FRAME MTD MACK CAP DPF	Std
	ENGINE EQUIPMENT	
1134100	AIR COMPRESSOR, MERITOR/WABCO 318 18.7 CFM	Std
1270002	INSIDE/OUTSIDE AIR INTAKE W/IN-CAB CONTROL FOR SNOWPLOWS	Opt
<del></del>		ор.

		i dgc z
Pld Code	Description	
1321111	ALTERNATOR, LEECE NEVILLE 12V 160A BRUSH-TYPE	Opt
3165106	BATTERIES, (3) MACK 12V 1000/3000 CCA THREADED STUD	Opt
1210001	BUG SCREEN, RADIATOR MOUNTED	Std
1190004	TO -34 DEGREES F (-37 DEGREES C)	Std
1230011	MACK COOLANT CONDITIONER	Std
1100700	ENGINE BRAKE, MACK POWERLEASH	Std
1290009	ENGINE BLOCK HEATER, 120V 1500 WATT ENGINE BLOCK HEATER	Cpt
1180026	FAN DRIVE, BEHR FAN AND ELECTRONIC MODULATING FAN DRIVE	Std
2930001	FUEL-WATER SEPARATOR, MACK WIMANUAL DRAIN VALVE (INTEGRAL WIPRIMARY FUEL FILTER)	Std
1240003	HOSES - RADIATOR/HEATER, MACK BRAND EPDM RADIATOR & HEATER HOSES	Std
0971000	OIL PAN, CORROSION RESISTANT OIL PAN	Opt
1310000	OIL PAN HEATER, W/O OIL PAN HEATER	Std
1210000		
1280000	W/O ENGINE COLD START AID	Std
1311215	STARTER, 12 VOLT DELCO MTHD 39	Std
1190000	TETHER DEVICE, W/O TETHER DEVICE	Std
	TRANSMISSION EQUIPMENT/DRIVELINES	
1630000	CLUTCH ASSIST (AiR), Information is not required	Std
350003	CLUTCH PEDAL, W/O CLUTCH PEDAL	Std
3260000	mDRIVE - PARKER PUMP, W/O PARKER PUMP	Std
A050000	TRANSMISSION SHIFT SETTINGS, W/O TRANSMISSION SHIFT SETTINGS	Opt
/19 <b>00</b> 00	TRANSMISSION PTO1 SPLITTER RANGE, W/O PTO1 FOR SPLITTER RANGE	Opt
//200000	TRANSMISSION PTO2 SPLITTER RANGE, W/O PTO2 SPLITTER RANGE	Opt
920002	TRANSMISSION BELL HOUSING, ALUMINUM	Std
380000	W/O TRANSMISSION DUSTPROOFING	Std
390009	TRANSMISSION OIL COOLER, STAINLESS STEEL COOER LINES	USR
L40008	SYNTHETIC LUBR!CANT - TRANSMISSION, TRANSYND SYNTHETIC LUBE FOR ALLISON TRANS	Opt
79223F	VOCATIONAL PACKAGE - ALLISON, ALLISON GEN 5 PACKAGE #223, ON/OFF HWY, SHIFT TO	Opt
	NEUTRAL W/PARKING BRAKE ENGAGED	
380000	WITHOUT DRIVESHAFT GUARD FOR CENTER BEARING	Std
951202	DRIVELINE - MAIN, MERITOR 176 MXL "XTENDED LUBE"	Opt
	CAB (A thru G)	
731001	MACK (BERGSTROM) INTEGRAL WIHEATER COMBINATION HEATER/DEFROSTER AND CONDITIONER	Std
260000	AIR RESTRICTION MONITOR (INTAKE), AIR RESTRICTION MONITOR (DISPLAYED IN CO-PILOT)	Std
940011	DASH CONTROL/POWER SUPPLY/LOCAL INSTALLATION PLOW LAMPS W/LEAD FURNISH AT GRILLE	Opt
	W/2W/3W WEATHER PACK CONNECTION	
443000	CAB CONFIGURATIONS, LH-DRIVE CA68 CONV CAB	Std
OD0000	WITHOUT CAB CLEANOUT	Std
070001	CAB MOUNTING, AIR SUSPENSION	Std
970001	CERTIFIED WEIGHT	Opt
640011	PROVIDE (6) MISC SWITCHES (2) 15A IGN, (1) 20A IGN, (1) 10A IGN, (1) 15A BAT, AND (1) 20A BAT.	Opt
050003	PARK BRAKE AND ENGINE RUNNING ACTIVATED	Std
760005	(4) DOME LAMPS - DOOR AND SWITCH ACTIVATED	Std
090005	FENDER EXTENSIONS, FENDER EXTENSIONS	Opt
860105	5LB (ABC RATED) MOUNTED BETWEEN LH SEAT BASE AND DOOR WITH VALVE AIMED REARWARD	Opt
330042	GAUGE CLUSTER, EXHAUST PYROMETER AND TRANSMISSION OIL TEMPERATURE GAUGES	Std

Pid Code	Description	
1980001	GAUGES, ENGLISH/METRIC DISPLAY	Std
2150000	WITHOUT REAR AXLE OIL TEMPERATURE GAUGE	Std
6390000	W/O INSIDE/OUTSIDE TEMP GAUGE OPTION	Std
4921003	GEAR SHIFT, DASH MOUNTED SHIFTER	Inc
1450001	GLASS - CAB WINDOW, TINTED WINDSHIELD, SIDE AND REAR WINDOWS	Std
5870021	DIAGONAL GRAB HANDLE ON INSIDE DRIVER'S DOOR	Opt
B700002	GRILLE - HOOD AIR INTAKE, BRIGHT FINISH GRILLE	Opt
4000018	GRILLE, BRIGHT FINISH BARS WIBRIGHT FINISH SURROUND GRILL MOUNTED	Opt
	CAB (H thru R)	
3210002	HEADLINER, VINYL COVERED FOAM PADDED HEADLINER	Std
3400013	HOOD AND FENDERS, COMPOSITE MATERIAL - TILTABLE WIINSPECTION HATCH	Inc
2080001	PAINTED HOOD LATCHES	Std
1540001	HORN - AIR, (1) MACK RECTANGULAR SINGLE TRUMPET	Std
3610001	HORN - ELECTRIC, DUAL TONE (TWO HORNS)	Opt
3120015	IDENTIFICATION/CLEARANCE LIGHTS, (5) MARKER AND CLEARANCE, INCANDESCENT, SURFACE	Std
	MOUNTED	
C010000	IN-DASH STORAGE, W/O UPPER STORAGE OPTION	Std
C0J0012	INSTRUMENT CLUSTER DISPLAY, CO-PILOT DRIVER DISPLAY, ENHANCED 4.5" DIAGONAL LCD	Std
	DISPLAY W/4-BUTTON STALK CONTROL W/O DIAG DISPLAY	
A270003	INSTRUMENT PANEL, WOODGRAIN FINISH	Inc
0042103	INTERIOR TRIM (PEDIGREE - SLATE GRAY) Vinyl headliner, cloth/vinyl seat trim, 2 netted storage	Opt
	compartments and center CB radio mounting provisions in overhead console, rear panel with storage pouch,	
	signature polyurethane floor mat, brushed nickel instrument panel with chrome gauge bezels, diamond	
	pattern fabric on doors, padded interior sun visors both sides, 2 spoke urethane grip brushed nickel spokes,	
	brushed nickle Mack horn cap, adjustable tilt/telescoping steering column, hand crank ih/rh windows, 2	
	general overhead lights, 1 driver overhead light & 1 map non-glare overhead light, 2 12V power sources, 2	
	cup holders, 2 trash bag hooks, 2 coat hangers, rh storage compartment, seat belt retractors, rh door peep	
	window, lighted door mounted map pocket lights.	
1600001	CHASSIS KEYED AT RANDOM - 2 KEYS	Std
1522113	MIRRORS - EXTERIOR, AERODYNAMIC MOTO MIRROR PACKAGE: RH/LH MOTORIZED & HEATED	Opt
1532002	MIRRORS - CONVEX TYPE, BRIGHT FINISH, LH & RH, 8" DIA. CONVEX	Std
150000	OVERHEAD CONSOLE, (3) COMPARTMENT WINET	Opt
1746101	AM/FM PREMIUM STEREO, CD-PLAYER, MP3, WEATHERBAND, HANDSFREE INTERFACE, BLUETOOTH	Std
1560004	RADIO ANTENNA, CAB MOUNTED BEHIND LH DOOR	Std
1660001	POWER LEADS (5-WAY BINDING POSTS FOR CB RADIO) MOUNTED ON TOP OF DASH	Inc
2030009	RADIO ANTENNA - CB, 48" ANTENNA LEFT SIDE MIRROR MOUNTED	Opt
4320002	DASHBOARD MOUNTING STRAP	Opt
	CAB (S thru Z)	
1962270	SEAT - DRIVER, BOSTROM TALLADEGA 915 (HI-BACK) AIR SUSPENSION	Opt
1971116	SEAT - RIDER, MACK FIXED (HI-BACK) WINTEGRAL STORAGE COMPARTMENT	Opt
1659000	SEAT ARM RESTS, INBOARD MOUNTED ARM REST, DRIVER'S SEAT ONLY	Inc
1850002	SEAT COVERING, CLOTH W/VINYL TRIM DRIVER AND RIDER	1nc
5920005	SEAT BELTS/RETRACTORS, LAP AND SHOULDER W/CAB MOUNTED SHOULDER BELT W/ADJUSTABLE D-RING FOR DRIVER & RIDER SEATS	Std
3730000	W/O ROOF VENT VENTILATION	Std

Pid Code	Description	
4390001	STEERING COLUMN, ADJUSTABLE TILT TELESCOPE	Std
1610013	STEERING WHEEL, TWO SPOKE URETHANE GRIP BRUSHED NICKEL SPOKES	Inc
D0C0001	STORAGE POUCH REAR	Std
570001	SUN VISOR, EXTERIOR, FIBERGLASS (CAB COLOR)	Opt
540002	SUN VISOR - INTERIOR, BOTH SIDES (PADDED VINYL)	Std
390007	TURN SIGNAL SWITCH, SELF CANCELLING TURN SIGNALS	Std
460008	WINDOW CONTROLS, POWER WINDOW LIFT WITH ELECTRIC DOOR LOCK, LH & RH	Opt
1060002	WINDSHIELD, 2-PIECE WINDSHIELD	Std
579001	WINDSHIELD WASHER RESERVOIR, WINDSHIELD WASHER RESERVOIR INSTALLED BOC	Opt
480011	WINDSHIELD WIPERS, 2 SPEED ELECTRIC MOTOR WINTERMITTENT FEATURE	Std
	FRAME EQUIPMENT/FUEL TANKS	
794102	BUMPER - FRONT, EXTSWEPT BACK-STEEL CHANNEL 122.5"/3112 mm BBC	Std
811055	CROSSMEMBERS, BOC AND INTERMEDIATE(S) STEEL HD BACK-TO-BACK CHANNEL	Std
670007	CROSSMEMBER (BEHIND REAR AXLE), W/O OPTIONAL CROSSMEMBERS BEHIND REAR AXLE/BOGIE	Std
190000	WITHOUT FIFTH WHEEL MOUNTING ANGLES	Std
241030	FRONT FRAME EXTENSION, 20" FOR SNOW PLOW MOUNT (CONT PARENT RAIL) W/TILT	Opt
	WINSPECTION HATCH TYPE HOOD W/SWEPT-BACK STEEL BUMPER.	
430009	TOWING DEVICE - FRONT, HOOKS	Std
B8A072	FUEL TANK - LH, 72 GALLON (276 L) ALUMINUM 26" DIAMETER	Opt
900000	FUEL TANK - RH, OMIT RH STANDARD	Std
210000	FUEL TANKS - BRIGHT FINISH, W/O SPECIAL FINISH FUEL TANK	Std
230002	STANDARD FINISH STEPS AND STAINLESS STEEL BRIGHT FINISH STRAPS	Opt
F12133	8.7 GALLON (33 L) DEF TANK	Inc
F20000	WITHOUT DEF TANK COVER	Inc
900000	W/O FUEL LINE OPTION	Std
330003	FURNISH STANDARD FUEL TANK CAP	Std
910000	W/O !SOLATED TANK(S)	Std
	FRONT AXLE/EQUIPMENT/TIRES	
401501	FRONT AXLE, 20000# (9072kg) MACK FXL20 WIDE PIVOT CENTER STRAIGHT SPINDLE/UNITIZED	Opt
	BEARINGS	
001359	TIRES BRAND/TYPE - FRONT, BRIDGESTONE - TUBELESS RADIAL PLY, (2) 315/80R22.5 20 L M860A	Opt
	(ALL POS)	
502000	WHEELS - FRONT, STEEL DISC (10-HOLE)	Opt
312723	(2) 22.5x9.0 (228 mm) HAYES LEMMERZ 10-HOLE HUB PILOTED (11 1/4"/288mm BC)(FIVE HAND HOLE)(6.42" INSET)	Opt
760000	WHEELS - POLISHED (FRONT), W/O FRONT DISC WHEEL BRIGHT FINISH	Opt
411105	BRAKES - FRONT, MERITOR "S" CAM TYPE 16.5" x 6" Q+	Opt
472200	BRAKE DRUMS - FRONT, CAST OUTBOARD MOUNTED	Inc
370001	DUST SHIELDS - FRONT BRAKE, FURNISH	Opt
481000	HUBS - FRONT, FERROUS	Std
463000	FAG SCHAEFFLER, FRONT GREASE SEAL	Std
850001	SHOCK ABSORBERS, FRONT	Std
420002	SLACK ADJUSTERS - FRONT, HALDEX - AUTOMATIC	Std
442003	SPRINGS - FRONT, MACK MULTILEAF 20000# (9072kg) GROUND LOAD RATING	Opt
260002	SPRING BUILD-UP, RH BUILD-UP FOR WING PLOW APPLICATIONS	Opt
452214	STEERING, SHEPPARD SD110 + HD94	Opt

#### TOWN OF CARMEL HIGHWAY DEPARTMENT

Carmel Highway Department 55 McAlpin Avenue Mahopac, NY 10541

## MICHAEL SIMONE Superintendent of Highways

845.628.7474 FAX 845.628.1471 MSimone@bestweb.net

#### FROM THE DESK OF: Michael Simone

TO:	TOWN BOARD/TOWN SUPERVISOR – KENNETH SCHMI	Work Session 12 9 15	<u></u>
DATE:	NOVEMBER 30, 2015	☐ Agenda	
RE:	TOWN BOARD AGENDA		

Please add to the agenda -

Consider Town Infrastructure Resolution per the New York State Association of Town Superintendents of Highways.

On behalf of myself and the other NYS Highway Superintendents, I strongly suggest your support for this, as it could result in a positive impact on our Community's future CHIPS funding.

#### Local Transportation Funding - Draft Resolution

Whereas, a reliable transportation infrastructure is vital for the safety of New York's travelling public and its economy; and

Whereas, 85 percent of New York's roads and bridges are maintained by local governments; and

Whereas, despite well-timed and targeted preventative maintenance treatments, the age and condition of many of our locally-owned transportation assets means that they are beyond preservation and in need of much more costly rehabilitation and reconstruction; and

Whereas, estimates by the State Comptroller, DOT and independent studies show a large portion of road mileage is deteriorating and many bridges in the state are rated structurally deficient and functionally obsolete; and

Whereas, the State Comptroller estimates that there will be \$89 billion in unmet local infrastructure needs over the next 20 years; and

Whereas, the New York State Association of Town Superintendents of Highways commissioned its own fifteen year analysis that indicates an annual funding gap of \$1.3 billion for the local system (excluding NYC) alone; and

Whereas, funding for our local system has been far short of what is needed and we've fallen further and further behind in maintaining the vast and aging transportation infrastructure over this long period with severe consequences for conditions ratings; and

Whereas, the New York State Consolidated Local Street and Highway Program (CHIPS) provides essential funding for every municipality in the state and is part of the New York State Department of Transportation (NYSDOT) capital program; and

Whereas, in the early 1990's the Governor and Legislature created the Dedicated Highway and Bridge Trust Fund (DHBTF) to pay for the NYSDOT capital program and the Dedicated Mass Transit Trust Fund (DMTTF) to assist with the Metropolitan Transportation Authority (MTA) and other transit systems' capital programs; and

Whereas, when the DHBTF was created, it was agreed that the NYSDOT and MTA five-year capital programs would be similar in size and would be negotiated concurrently; and

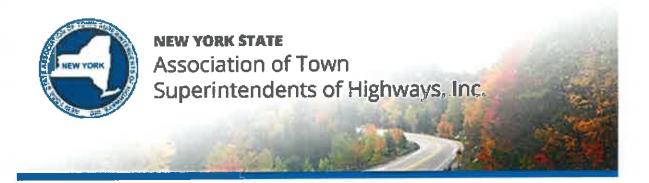

Whereas, through 2005-09, both five-year capital programs were similar in size and adopted within months of each other; and

Whereas, in 2010 the Executive and Legislature broke traditional parity and enacted a five-year capital program for the MTA but not the DOT; NOW THEREFORE BE IT

RESOLVED, that the Town of --- calls upon the Governor and the state Legislature to make additional state funding and resources available at levels that accurately reflect the critical needs of local roads and bridges; and increase CHIPS funding in the 2016-17 state budget; and BE IT FURTHER

RESOLVED, that the Town of --- calls upon the Governor, and members of the state Legislature to fully fund and submit a new NYSDOT five-year transportation capital plan; and BE IT FURTHER

RESOLVED, that the Town of --- calls upon the Governor and members of the state Legislature to recognize the equality of roads, bridges and transit by restoring funding equality between the MTA and NYSDOT five-year programs and by voting on the plans simultaneously.

### NYSAOTSOH Membership Call to Action!

As part of our advocacy efforts we are asking for your immediate assistance.

On behalf of the association, please see the attached draft resolution for you to circulate to your Town Board for their approval which supports increased state funding for local transportation and parity between the DOT and MTA five-year capital programs. Requesting that the capital programs be funded equally and simultaneously is extremely important for the non-transit infrastructure of the state. The timing of our request is critical as the MTA Capital Review Board is meeting soon and there is an opportunity for our Legislative Leaders in Albany to voice their concerns with the lack of parity by voting NO.

We would kindly request that you have copies of the approved resolution forwarded to the Governor and Legislative Leaders as well as your local Senator and Assembly member. Additionally, in an effort to track member participation, please forward a copy of your approved town resolution to Association Headquarters at <a href="mailto:info@nystownhwys.org">info@nystownhwys.org</a> or NYSAOTSOH, 125 State Street, Albany, NY 12207. Or, if more convenient you can simply send us an email stating your participation.

Please feel free to amend/customize the resolution to meet your needs.

The following are links to the 2014 NYS Comptroller report on Infrastructure Needs as well as the NYSOATOSH Local Needs Assessment:

https://www.osc.state.ny.us/press/releases/dec12/122012a.htm

https://www.nystownhwys.org/wpcontent/uploads/2014/11/2013LocalNeedsAssessmentUpdate.pdf

Also, attached below is a recent OpEd article we along with the County Highway Superintendents
Association submitted which provides background on the issue of parity between the DOT and MTA
capital programs.

If you have any questions please call 518-426-1023.
Thank you, NYSAOTSOH Executive Committee

### **Caution Drivers - Rough Road Ahead**

On Saturday, Governor Andrew Cuomo and NYC Mayor Bill de Blasio announced they had reached an agreement to jointly subsidize the Metropolitan Transportation Authority's (MTA) nearly \$11 billion funding gap in its over \$26 billion 2015-19 five-year capital program. While the state hasn't yet disclosed where it will come up with its commitment of \$8.3 billion, we certainly support this very necessary investment in downstate transit. We hope that the Governor will show the same depth of leadership while developing and funding New York's highway and bridge five-year capital program.

In the recent MTA agreement press release, Governor Cuomo said, "The MTA is the lifeblood of New York, helping millions of people travel throughout the city and surrounding suburbs." We agree, nearly half of the commuters in the twelve counties that have MTA service use public transit to travel to work. But it is important to note that almost forty percent still commute by car. In the state's other fifty counties without MTA service, commuters are much more dependent on their cars with over 95 percent using them to get to work.

#### **Parity**

In the early 1990's, then-Governor Mario Cuomo and the Legislature created the Dedicated Highway and Bridge Trust Fund (DHBTF) to pay for the New York State Department of Transportation (NYSDOT) capital program and the Dedicated Mass Transit Trust Fund (DMTTF) to assist with the MTA and other transit system capital programs.

At that time, drivers statewide were asked to have a portion of their gas taxes and auto fees directed toward the DMTTF. Today, New York's drivers pay hundreds of millions of dollars annually to mass transit, about 90 percent of which goes to the MTA.

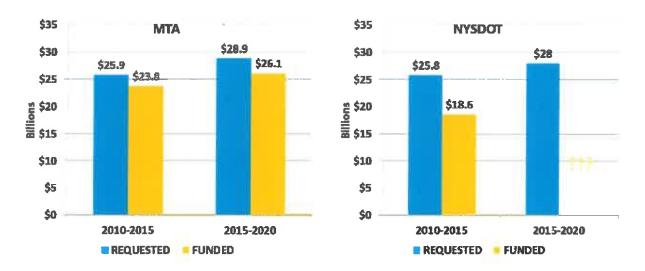

In return for drivers' financial assistance to transit it was originally agreed that the DOT and MTA's five-year capital programs would be similar in size (parity) and would be negotiated simultaneously.

For nearly two decades through 2009, the parity agreement was honored and both five-year capital programs were similar in size as well as adopted within a month of each other.

In 2010, parity between the MTA and DOT was broken. The MTA received a \$23.8 billion five-year

capital program from 2010-15. The DOT's five-year program was never fully funded and the agency only received \$18.6 billion to maintain its aging and crumbling infrastructure.

MTA - NYSDOT 2010-2015 vs. 2015-2020 Capital Programs

### Time to release the NYSDOT 2016-20 Five-Year Capital Program

On April 28,2014, the Governor and legislative leaders signed a memorandum of understanding (MOU) that called for NYSDOT to submit a five-year capital program for the state highway and bridge program and other transportation modes for SFY 2015-16 through SFY 2019-20.

Over a year ago the MTA released a proposed \$32 billion five-year capital program followed by public hearings and talks among city and state officials to prioritize the capital needs. This initial proposal and information from the hearings formed the basis of the agreement announced over the weekend by the Governor and Mayor.

Historically the NYSDOT has submitted its five-year capital program needs around the same time as the MTA. In the fall of 2009 NYSDOT revealed its last five-year capital needs request of over \$25 billion. Today it is believed that the NYSDOT's needs will top \$28 billion. If that number is accurate the NYSDOT will have an estimated \$10 billion funding gap, very similar in size to the MTA's funding gap that was just subsidized.

It has been over a year and half since the MOU was signed - it is time for the NYSDOT five-year needs request to be released and a state commitment made to fully fund it!

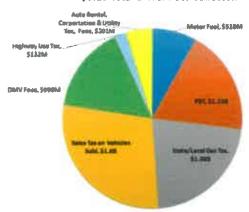

### **Use Current Driver Fees/Taxes to Cover NYSDOT's Funding Gap**

New York's 11 million drivers pay some of the highest gas/automobile taxes and fees in the United States. The fees and taxes paid by drivers exceed over \$6 billion annually yet only about a third of these revenues are dedicated to maintaining our transportation infrastructure.

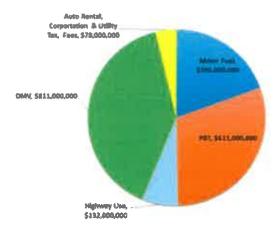

This leaves nearly \$4 billion annually in driver fees and taxes being diverted from their intended use of maintaining New York's roads and bridges.

The Governor and Mayor announced in their MTA agreement that they would no longer allow MTA funds to be redirected to non-mass transit purposes. We urge that similar language be enacted to ensure all driver fees and taxes be used solely for maintaining highway and bridge infrastructure.

# ONLY \$2.2B IN DRIVER FEES ARE DEDICATED TO HIGHWAY INFRASTRUCTURE

2012

Numerous reports by Comptroller Tom DiNapoli, NYSDOT and independent organizations show a large number of the state's road mileage is deteriorating and many bridges in the state are rated structurally deficient and functionally obsolete. Thirty-two percent (32%) of our bridges are deficient and 40% of road pavements are rated fair or poor and getting worse. The Comptroller estimates that there will be \$89 billion in unmet infrastructure needs over the next 20 years on just the local system. *Our state public officials cannot afford to wait any longer to fund our highway and bridge infrastructure.* 

The MTA is getting the state financial assistance it says it needs; it's time to restore parity between the MTA and the NYSDOT to begin to address the critical state and local needs of our highways and bridges. An additional \$10 billion for NYSDOT over the next 5 years would seem fair.

Jeffrey Griswold
President, NYSAOTSOH

Kevin P. O'Brien, PE President, NYSCHSA

Mr. Griswold is President of the New York State Association of Town Superintendents of Highways (NYSAOTSOH) and Highway Superintendent for the Town of Preble. Mr. O'Brien is the President of the New York State County Highway Superintendents Association (NYSCHSA) and Commissioner of the Niagara County Department of Public Works. The membership of their collective organizations is responsible for ensuring the safe operation of 87 percent of the state's roads and half of its bridges.

### COUNTY OF PUTNAM - PURCHASING

40 Gleneida Ave.-1st Floor-Room 105, Carmel, NY 10512 TELEPHONE: 845-808-1088 / TELEFAX: 845-808-1914

TITLE: PAINTING OF STRIPES ON COUNTY ROADS

BID NUMBER: RFB-38-15

### **PARTICULAR BID SPECIFICATIONS**

### PAINTING REFLECTORIZED PAVEMENT STRIPES ON COUNTY HIGHWAYS

### I. GENERAL:

All final, interim, and temporary markings shall be furnished and applied in locations directed by the Commissioner in accordance with the Manual of Uniform Traffic Control Devices and the Standard Specifications, Construction and Materials prepared by the New York State Department of Transportation Office of Engineering, dated May 1, 2008 with all errata and updates, and in particular, provisions of Section 640, unless modified by these Particular Specifications.

It shall be the responsibility of the Bidder, before submitting a bid, to make himself fully familiar with the work to be done. A contractor will be barred from pleading misunderstanding or deception because of estimates of quantities, character of scope of work, location of other conditions surrounding the same.

Work is to begin as directed by the Commissioner or designated representative.

### II. SAFETY & MAINTENANCE OF TRAFFIC:

The contractor shall be responsible for conducting operations with all precautions for the safety of the traveling public and its own employees.

Hard hats and orange colored reflective safety vests shall be worn by all personnel working along County highways.

The striping machine shall carry warning signs, supplied by the Bidder, which are adequate in size and clearly visible. A truck, supplied by the Bidder, with warning signs shall follow the striping machine at an adequate distance in order to prevent traffic from tracking wet pavement markings. The Bidder shall place traffic cones on the wet centerline and remove the cones when the centerline is dry.

Flagmen and signs supplied by the Bidder, in accordance with the aforesaid Manual of Uniform Traffic Control Devices shall be used wherever necessary.

The Bidder shall maintain traffic at all times and with as little interference or inconvenience as possible. No County Highway or portion thereof may be closed to traffic at any time.

The Bidder shall take such other safety measures as may be ordered by the Commissioner of Highways & Facilities or his designated representative.

Any alterations to this document made by the Offeror may be grounds for rejection of the proposal, cancellation of any subsequent award, or any legal remedies available to the County of Putnam.

### COUNTY OF PUTNAM - PURCHASING 40 Gleneida Ave.-1<sup>st</sup> Floor-Room 105, Carmel, NY 10512

TELEPHONE: 845-808-1088 / TELEFAX: 845-808-1914.

TITLE: PAINTING OF STRIPES ON COUNTY ROADS

BID NUMBER: RFB-38-15

# III. DURATION, AWARD BASIS, QUANTITIES, CONTRACTOR QUALIFICATIONS:

This bid shall be in effect from September 1, 2014 - August 31, 2015

The contract will be awarded to the lowest responsible bidder meeting these specifications for each of the pavement striping and pavement marking (stop bars, crosswalks, symbols, etc.) categories.

Actual quantities ordered under this contract will be determined by the Commissioner of Highways & Facilities or his authorized agent.

Only contractors experienced with traffic line painting for NYSDOT or at least five (5) Counties are eligible to bid on this work.

Truck mounted equipment with at least two spray guns shall be used.

### IV. WORK PERIODS:

Painting shall be done Mondays through Fridays and not on a holiday or the day before or after a Holiday. The major painting work shall be done approximately between May 15<sup>th</sup> and October 15<sup>th</sup>. However, due to the necessities of maintenance and construction of the County highways, smaller quantities may be needed from time to time.

## V. ROAD AND WEATHER CONDITIONS:

For water based paint, no painting shall be undertaken when the temperature is below 50 degrees Fahrenheit. No water based painting shall be undertaken when the relative humidity is greater than 85%. No water based painting shall be undertaken during period of rain or if rain is imminent unless specifically approved by the Commissioner of Highways & Facilities. Waterborne traffic paint shall not be applied if rain is expected within 4 hours after application.

The Putnam County Department of Highways & Facilities shall be responsible for cleaning the pavement before striping.

The Bidder shall notify the Commissioner or designated representative at least 48 hours prior to starting operations in order for the County to provide any required road cleaning.

### VI. LAYOUT:

The Putnam County Department of Highways & Facilities shall provide all layouts for pavement marking and the required lane width. All edge lines shall be placed as measured from the centerline.

### COUNTY OF PUTNAM - PURCHASING

40 Gleneida Ave.-1<sup>al</sup> Floor-Room 105, Carmel, NY 10512 TELEPHONE: 845-808-1088 / TELEFAX; 845-808-1914

TITLE: PAINTING OF STRIPES ON COUNTY ROADS

BID NUMBER: RFB-38-15

### VII. WAGES:

The Bidder agrees to pay a minimum wage which shall be equal to the hourly wage as scheduled by the State of New York Department of Labor, for the various classes of occupations required for the indicated work. Such schedule shall include the prevailing wage rates in effect in the County of Putnam in accordance with the provisions of Section 220-D of the New York State Labor Law.

### VIII. MATERIAL DELIVERY & STORAGE:

All paint required shall be delivered to the County Highway Facility at 842 Fair Street in the Town of Patterson. Paint shall be delivered in 55-gallon drums prior to the start of work. The County shall be given 24-hour notice before any delivery of paint or beads.

The County will provide outside storage for paint and will provide a forklift to assist with truck unloading only if prior notice of a delivery is given. Inside storage of reflectorized glass beads will be provided if prior notice is given.

The Contractor will remove all excess materials and empty paint drums within sixty (60) days after the completion of the season's final application. By providing storage, the County is not liable for any damages, theft or any other losses that could be incurred by the Contractor who must maintain insurance on the stored materials and clean up any spills that may occur.

### IX. QUALITY CONTROL:

The Bidder should only use striping equipment equipped with "Flow Meters" and "Foot Distance Meters" for calibrating and measuring the work performed.

The Bidder will take all necessary and reasonable precautions to insure that motorists using the highways being striped do not get paint on their vehicles. In such event, the bidder will directly respond to and rectify all verifiable incidents of paint damage on such vehicles.

### X. QUALITY ASSURANCE:

The Bidder shall be responsible for all complaints from the public arising out of the striping of the County highways. The Bidder must have a "Field Complaint Procedure" in place. A copy of the "Field Complaint Procedure" should be submitted with the bid.

### XI. INSPECTION:

The Bidder shall advise the Commissioner of Highways & Facilities at least 24 hours before any application is to be done or before resuming work after a delay or postponement. The

PAGE: 11

### COUNTY OF PUTNAM - PURCHASING

40 Gleneida Ave.-1st Floor-Room 105, Carmel, NY 10512 TELEPHONE: 845-808-1088 / TELEFAX: 845-808-1914

TITLE: PAINTING OF STRIPES ON COUNTY ROADS

BID NUMBER: RFB-38-15

Commissioner, or his authorized representative, will inspect the applications of paint on the County Highways & Facilities.

The Commissioner or his authorized representative shall have the authority to stop work, at any time when, in his opinion, the material, workmanship, operation or end product is unsatisfactory or does not comply with N.Y.S.D.O.T. Standard Specifications Section 640-3 as amended or any safety requirement. In case of a Stop Work Order, work shall not be resumed until authorized by the Commissioner or his authorized representative.

Should workmanship not meet the specifications, the Commissioner of Highways & Facilities may, at his own discretion, terminate the contract.

The Commissioner or his designated inspector shall have the right to enter the Contractor's equipment and to read painting unit flow and mileage gauges at any time during work within the County.

### XII. RECORDS AND PAYMENT:

The Commissioner or his designated inspector, shall be given a daily report prepared by the Contractor that summarizes the day's work. For each road painted, said report shall show: beginning and ending point, length in miles, lineal feet of painted line applied, gallons of paint and pounds of beads used. The striping machine operator shall verify all daily reports with the County and shall sign said reports.

The required paint wet film thickness application rate for this contract is 20 mils (approximately 20 gallons per 4 inch wide line per mile).

The report shall compare the actual quantities of materials used with the theoretical quantities required by the specified application rates. The County reserves the right to withhold payment from the Contractor for any day's work for which a daily report is not provided.

No payment will be made during the course of each mobilization. Payment will be made for all work after completion of that work, provided such work is satisfactory to the County Engineer. Prior to any payments being made, the Contractor shall submit certification that all labor and material have been paid in full. Copies of certified payrolls are required with each invoice.

# XIII. STOP LINES, HATCH LINES, CROSSWALKS AND CROSSBARS (Items No. P640.24 and P640.25):

All provisions of Section 640 shall apply to these items of work, except that Items 640.20 and 640.21 shall be used to pay for only centerlines, lane lines, and edge lines (measured in miles to the closest hundredth, not feet).

Any alterations to this document made by the Offeror may be grounds for rejection of the proposal, cancellation of any subsequent award, or any legal remedies available to the County of Putnam.

PAGE: 12

### COUNTY OF PUTNAM - PURCHASING

40 Gleneida Ave.-1st Floor-Room 105, Carmel, NY 10512 TELEPHONE: 845-808-1088 / TELEFAX: 845-808-1914

TITLE: PAINTING OF STRIPES ON COUNTY ROADS

BID NUMBER: RFB-38-15

Stop lines, hatch lines, crosswalk markings and crossbars shall be paid for under Item Nos. P640.24 and P640.25, and shall be measured to the nearest tenth of a square foot of area painted, by calculating the product of the length and width of the markings applied.

### XIV. MOBILIZATION (Item No. P699):

The Contractor shall provide a lump sum price for each mobilization requested by the County.

A mobilization shall be defined as the Contractor responding to a single request by the County to paint traffic lines in Putnam County, regardless of quantity. Once all work requested by the County under the mobilization is completed and the Contractor has left the County, that mobilization will be considered completed. Subsequent requests for work by the County will be subject to a new mobilization fee. (The County may add work during the on-going mobilization before the Contractor has left the County without being subject to new mobilization charges.)

The price bid for mobilization shall cover all of the Contractor's costs for supplying labor, equipment and materials to complete the work requested by the County associated with a single request. The Contractor shall begin work for a particular mobilization within five (5) workdays of written notice to proceed. Once mobilized, the Contractor shall work exclusively and continuously on the work requested by the County until completed.

Re:

2<sup>nd</sup> Notice to Municipality of Restaurant/Wine Application for

Antonino C Food Service Inc. dba Ristorante Spadafora

Dear Village Clerk:

On behalf of our client, Antonino C Food Service Inc. dba Ristorante Spadafora, we hereby re-notify you pursuant to Alcohol Beverage Control Law, Sections 64, Subdivision 2a and 99D, that our client intends to file an application for a Restaurant/Wine License at 18 Clark Place, Mahopac, New York 10541. Enclosed herewith is the SLA Standardized Notice Form for your review.

In addition, we respectfully request that the Town of Carmel, waive the statutory thirty (30) day waiting period to allow our client to file its application for a Restaurant/Wine License as soon as possible as this restaurant has been open for several months without the ability to serve beer and wine. Please advise the undersigned of the Town of Carmel's position at your earliest convenience.

Thank you for your consideration. Should you have any questions, please do not hesitate to call.

Very truly yours,

Law Office of Bruno V. Gioffre, Jr., PLLC

Bruno V. Gioffre, Jr., Esq.

### Good morning,

The Town of Carmel (Town) is looking to obtain proposals to install screening for the dumpsters located at Town Hall. Town Hall is located at 60 McAlpin Avenue in Mahopac, NY 10541.

### Please note the following:

- All prospective proposers should arrange for a site visit at Town Hall prior to submitting a proposal;
- Per §96-3 of the Town of Carmel Town Code, the dumpster must be screened with a minimum six-foot fence, slatted or solid, either black, brown or hunter green;
- Dumpster enclosure shall be not more than four feet larger than the dumpster to be enclosed within;
- No signage is permitted on the enclosure;
- Upon completion all debris will be cleaned up and taken away;
- All proposers should be licensed in Putnam County; and
- All proposals should be presented using prevailing wage and be able to provide certified payrolls.

### All proposals are due back by Wednesday October 28, 2015 by 2 PM.

Thanks. Call with any questions.

To:	Carmel Town Board	-/ whit
From:	Richard J. Franzetti P.E. Town Engineer	Work Session 114/15
Date:	December 2, 2015	☐ Agenda
Re:	R 2015-005 Lake Casse Maintenance	

Proposals were solicited from contractors for the referenced maintenance contract. The following Bids were received:

52,000	57,500	62,500
13,000	14,750	16,000
13,000	14,750	16,000
13,000	14,000	15,500
13,000	14,000	15,000
TERENCE KELLY	JAMES CROUGHAN	ROBERT CAREY
	KELLY 13,000 13,000 13,000	KELLY CROUGHAN 13,000 14,000 13,000 14,750 13,000 14,750

Copies of the bids and the bid summary are provided as an attachment.

Based on the proposals received Terence Kelly is the low bidder. This Department contacted the references provided. The results are attached. In addition, the Lake Casse Park Advisory Board has provided the attached referral letter in support of Mr. Kelly.

Based upon the above information, we recommend that the contract be awarded to Terence Kelly for 2016 and 2017. We have checked with the Comptroller's Office and have been advised that there is sufficient money in the budget for this contract.

This matter should be placed on the next available work session for discussion.

# Lake Casse Park District Advisory Board 193 Shear Hill Rd Mahopac, New York 10541

LakeCasse@Gmail.com 845-628-6200

November 27, 2015

Town Supervisor Schmitt
And Members of the Town Board
Town of Carmel Town Hall
60 McAlpin Ave.this letter
Mahopac, New York 1054

RE:Terry Kelly - Referral for Lake Casse Park District Property Manager, 193 Shear Hill Rd.s

Town Supervisor Schmitt
And Members of the Town Board:

On Behalf of the Lake Casse Advisory Board we would like to refer Terry Kelly for the position of Property Manager for the Lake Casse Park District.

Terry has been an active community member for the last 3 years serving our park district by heading the Building and Grounds Committee. Terry volunteers his time to work on projects to improve the park district such as clearing lake shore access for fishing, repainting and repairing decks and life guard chairs, helped build and erect a new informational board at our beach entrance and does grounds clean up as well as prepping the grounds for parties and events. He has been present during all phases of our renovations to the club house and assisted in many ways.

Terry has worked alongside Bob Krontilik, our long time property manager; who has helped familiarize Terry with the club house, park district grounds and the lake requirements. Knowledge and familiarity of the property is crucial to effectively managing the park district and its lake.

With over 10 years of service working with the NYS Thruway Authority and 3 years as a supervisor, he has the experience in managing property, lawn and grounds maintenance, snow removal and scheduling. All these skills are pertinent to the property manager's job description.

Lastly, with all the investments and improvements we have made over the last few years it's important to have someone who really takes ownership and a watchful eye on things. Terry is a Lake Casse resident who resides directly across the street from the Lake Casse entrance. He can quickly access the property, easily monitor the grounds and can quickly tend to the needs of the property in an emergency or to show it for rentals.

Thank you for taking this time to consider our referral.

Sincerely,

Kim Kugler Lake Casse Advisory Board

# **MEMORANDUM**

То:	Carmel Town Board	/ salate
From:	Richard J. Franzetti P.E. Town Engineer	Work Session /2/9/15
Date:	December 3, 2015	☐ Agenda
Re:	Trough and Skimmers CSD#4	

The New York Department of Environmental Conservation (NYSDEC), on November 5, 2015, performed a comprehensive inspection of the Carmel Sewer District #4 (CSD 4) wastewater treatment plant (WWTP). The NYSDEC noted that there was floating sludge on the surface of the primary and secondary clarifiers.

Severn Trent Environmental Services (STES), the operators for CSD 4, has advised the Engineering Department (Department) that installation scum trough and weirs at the primary clarifier will address the NYSDEC concerns. The Board may recall that in September of this year the Engineering Department (Department) requested that the secondary clarifier drive, along with scum troughs and weirs were approved to be replaced at CSD 4.

In order to address the NYSDEC comment, this Department requested that STES provide a quote for scum troughs, baffles and weir plates for the primary clarifier. As STES recently received similar quotes in September for this equipment, STES requested if the manufacturer would maintain the costs provided in the previous quote which was agreed too. The following quotes (attached) to purchase the necessary parts:

Company/Brand	Cost
<ol> <li>Jedonna, LLC</li> <li>Tam Enterprises.</li> <li>Weststar Inc.</li> </ol>	\$9,147.90 \$11,583.84 \$11,840.90

The cost for installation is \$2,900.00

This Department spoke with the Town of Carmel Comptroller and she indicated that there are sufficient funds in the CSD 4 budget for this work

The installation of this equipment will help the Town maintain regulatory compliance at the WWTP.

This Department requests that the Town Board authorize the purchase of this equipment from Jedonna, LLC at cost of \$9,147.90. The cost for installation which will be performed by STES is \$2,900.00. The total cost is 12,047.90. I request that this matter be placed on the next Town Board work session.

Re:

Comprehensive Inspection
Carmel SD #4 Lake Secor WWTP
(T) Carmel, Putnam County
SPDES No. NY0105252

Dear Supervisor Schmitt:

On November 5, 2015, an inspection of the above facility was performed to evaluate compliance with the State Pollution Discharge Elimination System (SPDES) permit and Article 17 of the NYS Environmental Conservation Law. A copy of the inspection report is enclosed.

The following deficiencies were noted:

- 1) Floating sludge on surface of the primary and secondary clarifiers.
- 2) White slime growth on RBC #1 media.
- 3) UV Bank B intensity meter faulty.

Please address the above items in a timely manner to ensure continued compliance with the SPDES permit.

Your cooperation in operating and maintaining this facility is appreciated. Contact me at (914) 428-2505, ext. 355, if you have any questions.

Sincerely,

Armand De Angelis

Carmel Town Board

From:

Richard J. Franzetti P.E. Town Engineer

Date:

December 3, 2015

Re:

CWD#2 Filter Bag Replacement

Severn Trent Environmental Services (STES), the operators for Carmel Water District # 2 (CWD 2), has advised the Engineering Department (Department) that filter screens at the water treatment plant (WTP) are outside of serviceable life span and are beginning to tear and separate. There are three (3) filters at CWD 2 each with 19 filter screens (Total of 57 filter screens)

As the Board is aware filtration at the CWD 2 WTP is completed by means of a Diatomaceous Earth (DE) system. One of the components of the system are the filter bags with cover the suction manifold and allow the DE to build up thus creating a filter layer. The tearing and separating of the filter bags results in a loss of DE and diminished filter capability which results in a reduction of finished water quality. These filter bags need to be replaced

Because of the uniqueness and age of the CWD 2 WTP, STES is able to identify only one (1) manufacturer, Treatment Specialists, who can supply the requisite filter bags. STES requested and received the following cost for the filter bag installation:

- 57 (48"x60") filter bags are need for the three (3) filter units as a cost of \$190.00 per filter bag. Total cost \$10,830.00.
- Installation cost is \$4,950.00 (for all 57 filter bags)

The total cost for purchase and installation for the 57 filter screens is \$15,780.00.

STES has indicated that the current filter screens are approximately three (3) years old and have a life expectancy of three (30 to five (5) years.

This Department spoke with the Town of Carmel Comptroller and she indicated that there are sufficient funds in the CWD 2 budget for this work (see attached).

This Department requests that the Town Board authorize the purchase and installation of the filter bags from Treatment Specialist at a total cost of \$15,780.00. I request that this matter be placed on the next Town Board work session.

#### MEMORANDUM

To:	Carmel 7	Town	<b>Board</b>
-----	----------	------	--------------

Richard J. Franzetti P.E. Town Engineer From:

Work Session 12

December 2, 2015 Date:

□ Agenda

Sand Filter Influent Pumps CSD#2 Re:

Severn Trent Environmental Services (STES), the operators for Carmel Sewer District #2 (CSD 2), have alerted the Engineering Department (Department) that two (2) of the five (5) sand filter influents pumps are not functioning. The CSD 2 wastewater treatment plant operates three (3) pumps at a time with two (2) redundant pumps. Currently the system is operating without redundant pumps.

STES requested and received the following quotes (attached) to replace these pumps:

	Company/Brand	Cost
	Reiner Pump SB Church	\$10,000.00 per pump - \$20,000.00 total \$11,809.00 per pump - \$23,618.00 total
3.	PCS	\$18,325.00 per pump - \$36,650.00 total

It should be noted that the original pumps were installed approximately 7 years ago and the life expectancy of the new equipment is approximately 5 -10 years.

This Department spoke with the Town of Carmel Comptroller and she indicated that there are sufficient funds in the CSD#2 budget. A copy of this correspondence is attached.

The purchase of installation of these pumps is important because if the existing pumps are to fail the treatment process will not function properly and a permit exceedance can occur. The Town would then be in violation of our State Pollution Discharge Elimination System (SPDES) Permit.

This Department requests that the Town Board authorize the purchase of these pumps at cost of \$20,000.00 and that this request be placed on the next Town Board work session.

June 4, 2015

Vinny Maggio Severn Trent Environmental Services vmaggio@stes.com

Re: Sand Filter Influent Pump #2

Vinny:

Reiner Pump Systems is pleased to offer the following proposal for your review:

One (1) American Turbine vertical turbine pump and motor as follows:

- Single stage rated for 940 GPM @ 30 feet TDH
- Basket strainer
- 209.3 inch total pump length
- Hi-Pro cast iron discharge head with stuffing box
- 10HP 1800 RPM, 230/460V, WP1 VHS motor
- Standard paint on bowl, column, and discharge head

Price: \$10,000.00

FOB Factory, Freight Prepaid and Allowed

Notes & Exceptions:

- 1. No spares or testing
- 2. Installation is not included.
- 3. Standard delivery is in a box truck. Additional charges apply for a flatbed delivery.
- 4. Rigging and offloading by owner
- This quotation is for the items listed or stated above. No other items should be assumed or implied as being provided.
- 6. Reiner Pump Systems standard terms and conditions apply.

Delivery: Approximately 4 weeks after receipt of purchase order and full release to production

This quote is valid for 30 days from the date above.

Prices to not include any state, federal, or local taxes

Terms: Net 30 Days

Thank you for your interest in Reiner Pump Systems. Please don't hesitate to contact us if we can be of further assistance.

Sincerely,

Jamie Newgarde

#### REINER PUMP SYSTEMS, INC. STANDARD TERMS & CONDITIONS

#### **WARRANTY:**

All products are covered by the warranty of the specific manufacturer and subject to their standard terms and conditions. Reiner Pump Systems, Inc. is a manufacturer's representative and does not warranty the products, installations or deliveries. Copies of the specific manufacturer's warranty can be provided upon request.

#### **LIABILITY LIMITATIONS:**

Reiner Pump Systems, Inc. assumes no liability for loss of profits by reason of plant shutdown, non-operation, increase in expense of operation of other equipment or facilities, loss of production or progress of construction, whether resulting from delays in delivery or performance, faulty installation, breach of manufacturer's warranty, or any other special indirect, consequential, punitive, collateral, or liquidated damages.

#### **INSTALLATION:**

Buyer agrees to cause the products to be installed in accordance with the Manufacturer's instructions and will indemnify Reiner Pump Systems, Inc. against any and all damages, demands, suits, causes of action, claims and expenses arising directly or indirectly out of Buyer's failure to cause the products to be so installed.

#### PAST DUE ACCOUNTS:

Past due accounts will be assessed a finance charge equal to 1 ½ % per month. If an account is placed for collections, buyer must pay an additional 15 % to cover costs, expenses and attorney's fees.

#### PAYMENT:

All payments should be remitted to: Reiner Pump Systems, Inc., 270 Sparta Avenue, Suite 104, PMB 120, Sparta, NJ 07871.

#### **DELIVERY:**

Shipping dates are estimates only and are based on Manufacturer's production schedules and commitments by suppliers. Delay in shipment or variance from shipping schedule shall not be cause for cancellation or claim for damage. If, at buyer requests, shipment is delayed, the above payment terms commence running as of the date when ready for shipment.

#### RETURN POLICY:

No returns will be permitted without prior written consent of Reiner Pump Systems, Inc.

#### **CANCELLATIONS:**

A 25% cancellation charge will apply to any canceled orders prior to 'release to fabrication/manufacture'. Cancellations after 'release to fabrication/manufacture' will be invoiced in full.

#### FORCE MAJEURE LIMITATIONS:

Reiner Pump Systems, Inc. shall not be liable for any loss, damage or expense resulting from delay or failure of performance of Reiner Pump Systems, Inc.'s obligations hereunder if such delay or failure is due to acts of God or the public enemy, strikes, labor troubles, fire, explosions, riots, war governmental orders, or restrictions, shortages of materials or labor, delay in transportation, theft, accident, or any other cause for which Reiner Pump Systems, Inc. is not responsible.

E-mail StephenBCh@aol.com

Dear Vinnie -

With this e mail, we wish to provide you with our proposal for providing components to rebuild one of the turbine pumps at the Sewage Treatment Plant.

We ask that remove the old pump and bring us the old components, including the discharge head, bowl assembly, column pipe, lineshaft, spider bearings and motor.

When we done similar projects for Carmel in the past, we reuse certain of the old components, including the discharge head, stuffing box, column pipe flanges including the top column flange, and the adjustable shaft coupling (located right below the motor.) We assume in quoting on this project that these components can be cleaned, painted, and reused.

We propose to provide a new single stage 10 inch diameter bowl assembly selected to deliver 940 gallons per minute at 33 feet total discharge head. This bowl assembly would fully load the 10 horsepower motor. The bowl assembly would be provided with stainless steel bolting, a stainless steel basket strainer, and a bell-type suction bowl. Pump submittal information and a catalog curve are attached.

We also propose to have the discharge head and stuffing box sandblasted. We would replace the bushing in the stuffing box assembly and we would reuse one or more of the column flanges by removing it from the existing pipe and rewelding it to a new piece of column pipe. We would provide 15 feet of 6 inch column pipe and 1 inch stainless steel lineshaft.

Your cost for the components and work proposed would be \$9221. We assume that you would deliver the parts to us and pick them up at our shop when they are ready. We can arrange for delivery or pickup at \$275 each. Delivery on the pump components is expected to be 14 weeks from date of order.

We can provide a new 10 horsepower US vertical solid shaft motor, TEFC, 1800 rpm, inverter duty rated, for \$2313 additional as long as the new motor is ordered at the same time as the pump components are ordered.

Thank you for asking us to quote on this project. If you have any questions, feel free to call.

Very truly yours,
Jim Duncan

Vincent Maggio Severn Trent

Subject:

Replacement Fairbanks Nijhuis Vertical Turbine Pump

Sand Filter Influent
Carmel Sewer District # 2

PCS Pump and Process is pleased to offer the following Fairbanks Nijhuis proposal.

One (1) Fairbanks Nijhuis Model 10J Vertical Turbine Pump with the following:

- 10J Single Stage Pump Bowl Assembly
- Stainless Steel Impeller
- Dynamically Balanced
- 316 SS Impeller and Bowl Wear Rings
- Stainless Steel Basket Strainer
- 1800 RPM Operation
- 16.5" x 8" D Style Discharge Head with Cast Iron Sole Plate
- Bronze Packing Gland
- 6" Flanged Column and 416 SS Lineshafting Length to be equivalent to existing pumps
- Non-Witnessed Certified Performance Test
- Non-Witnessed Hydrostatic Test
- Kop Coat Bitmuastic 300M Coating is applied to the following in Two (2) Coats per the original materials of construction:
  - o Exterior of Bowl Assembly
  - o Interior and Exterior of Column
  - o Interior of Discharge Head

#### Notes:

- Pump has efficiency rating of 77.80 %.
- Design Conditions have been slightly reduced to 930 GPM @ 32' TDH to be non-overloading on the 10HP motor.
- Please advise if pump will be used in a potable water application. A potable water adder may apply.
- Motor is EXCLUDED from the above proposal and it is understood the existing motor will be reused.
- Installation and associated installation materials are excluded.
- Rehabilitation of any existing components is excluded.
- Field Wiring is excluded.

Start Up and Training is excluded from this proposal.

#### Freight:

FOB Factory and Included.

#### **Delivery:**

- Submittals within 4 -6 weeks after receipt and acceptance of order.
- Delivery within 14-16 weeks after submittal approval and written release to manufacture. Lead times are subject to factory load at time of order release.

Let me know if you have any questions on the included information.

Subject: 12-02-15 - CSD 2 Sand Filter Pump Requests.

Donna,

Is there sufficient budget to purchase two (2) sand filter pumps. Cost \$10,000 each.

### **MEMORANDUM**

To:

Carmel Town Board

From:

Richard J. Franzetti P.E. Town Engineer

Date:

December 3, 2015

Re:

Generator Replacement CWD#4 - Lake Baldwin Water District

Carmel Water District #4 (CWD 4) is equipped with standby power by means of a 100KW generator. The unit is a military surplus item obtained by the Town of Carmel in 2012. It is a unit from the 1980's and as such lacks modern controls such as voltage regulation, electronic governance and automatic transfer switch capability, which in short, means that the unit must be started manually and adjusted as necessary. A failure to make electrical output adjustments could result in damage to electrical components in the pump house.

Recently the fuel tank on the generator developed a leak. We were able to intervene quickly and contain the leak avoiding any contamination of the surrounding area which contains our production wells less than 100 feet away. We pumped the diesel fuel out of the tank to avoid any further leaking.

We requested Gentech, our current maintenance contractor for all standby generators, provide a quote to replace the leaking tank and at the same time upgrade the unit with modern controls. The quotes for that work are attached and total \$8,438.20. Concurrently, we researched New York State Office of General Service state bid list. Better Power, Inc. is currently the New York State Low bidder for generators. We contacted Better Power and received the attached quote for a Generac 100KW Diesel Generator. The total cost including automatic transfer switch, diagnostic software upgrades, extended warranty and shipment to our location is \$34,701.00. We estimate the cost of installation to be approximately \$5,000.00 including unit placement and wiring. The total estimate is therefore ~ \$40,000.00. Once authorized, there is approximately an eight (8) week lead time for delivery. It should be noted that the costs for installation are included in the 2016 budget.

We reviewed our recent contract from 2011 for generator installations in various districts. Under that contract we paid \$49,840.00 for the purchase and installation of an equivalent 100KW generator. That contract was let as a public works contract which is different than a direct purchase of goods under the OGS state bid system. As you can see, the realized savings amounts to about \$10,000.00, which we believe is a sensible model for generator replacements going forward. <sup>1</sup>

This Department spoke with the Town of Carmel Comptroller and she indicated that there are sufficient funds in the CWD 4 budget for the purchase of the generator.

Based upon the above we recommend that the Board approve the purchase of the generator from Better Power for \$34,701.00.

<sup>1</sup> The Town of Carmel has 42 standby generators, many of which are part of the 1997 CSD# 2 expansion, approaching their serviceable life span.

RE: NY State H.I.R.E. Contract Generator for the Town of Carmel, 100kW, 120/208V, three phase, SD Industrial Diesel with Heavy Duty Maximum Performance Package (HDMPP)

Mr. Vara,

This Pricing Confirmation from H.I.R.E. Contract # PC66786 is for a 100kW, 120/208V, three phase, SD Industrial Diesel and 400 Amp, NEMA-3R Automatic Transfer Switch for the Town of Carmel, Water District.

H.I.R.E. stands for (Hazardous Incident Response Equipment). See the Contract Reference below.

Please take 3 minutes to watch our **New Video** on the Benefits of Purchasing from State Contract: http://www.betterpower.us/purchasing-generators-on-state-contract

Let me know if you will require a Low Sound Enclosure for the generator or a different size transfer switch.

SD Industrial Diesel

Here is your Pricing Confirmation which includes:

- Freight to your location
- Factory Authorized Startup
- Life Safety Equipped per NFPA—110, Level-1
- Training for Staff at your Location
- EPA Compliant
- 6.7L engine running at 1800 RPM's
- Standard Weather Enclosure, Steel (Low Sound Enclosures are available as an option)
- Standard 220 gallon Double Wall Fuel Tank providing 30 hours of runtime at full load
- Remote Annunciator Panel with 21 indicator lights and 8 function relay
- 8 Position Load Center
- Block/Coolant Heater
- Battery Battery Warmer
- Output: 347 Amps
- Many more features are listed below in the Heavy Duty Maximum Performance Package (HDMPP).

#### **EXECUTIVE SUMMARY – Suitable for use in your PO**

- \$ 29,955 Contract Item #GENSD100G1S, 100kW, SD Diesel Generator: 120/208V, three phase, Steel, SD Industrial Diesel Series Model SD0100GG176.7D18HPYY3H1, (details page-5).
- \$ 3,594 Contract Item #GEN556S, 400 Amp Automatic Transfer Switch: 120/208V, three phase, GTS Series, Generac Model # GTS040W-3G2LDNCNF1, 3-pole.

  Includes -- NEMA-3R enclosure for indoor or outdoor mounting (details page-5).

#### \$ 33.549 Sub-total Cost for 100kW Generator and 400Amp Automatic Transfer Switch

#### **Recommended Options:**

<u>GenLink Software System</u> - for Notification, Remote Control, and Remote Troubleshooting from any PC (see description below).

- \$ 491 Contract Item #GEN9062CS, GenLink II DCP Software Kit #0E9062CSRVF1. Includes laptop connection Cable, Software and Instructions.
- \$ 661 Contract, Item #GEN1003S, Extended Limited Warranty: 5-year Comprehensive Replaces the included 2-year Basic Warranty.

Note: Warranty Activation Requires Generator Installation & Startup within one year of Shipment

#### \$ 34,701 TOTAL Cost of Generator, Switch and Recommended Options

Prices shown are valid for 30 days please contact us to reconfirm pricing after 30 days.

Pricing includes freight to your facility meeting the "Shipping Address Requirements" section below.

Please Note: Unloading, rigging, storage, and installation are not included.

Installation of Options and Additional Services: may be done by the Startup company at additional charge, or by the owner's contractor. (Please note that Better Power, Inc. is an Electrical Wholesale Distributer and does not do installations nor perform maintenance or repairs on the generators, switches or accessories we sell.)

National Code: The generators and transfer switches we supply meet national code requirements. If you have additional state or local code requirements, be sure to check with us for extra charges to meet those requirements. Electrical Inspector: Please consult your Electrical Inspector regarding electrical questions, since we at BPI are not electricians.

**Contract and Non-Contract items** will be invoiced separately.

Management Overview is at the end of this letter.

Additional information is available on our website that is set up for the Contract, www.BetterPower.us

#### **LEAD TIME**

We will give you the factory's estimated ship date after they process your order. Factory lead times are very approximate; often it ships sooner, but sometimes there are delays. Shipment dates cannot be specified and are not guaranteed, but the factory will ship each item as soon as it is ready. We will ask the trucker to call you 24 hours ahead of delivery. Storage is not included, so please be flexible in receiving the shipment.

#### STEP BY STEP PURCHASING GUIDE for Multi-State Contract customers

- 1. Send us a PO. If you do not use POs, send us a Letter Of Commitment.
- 2. <u>Please Call us by phone if you do not hear from us within 48 hours</u> of faxing or emailing us a PO to make sure we have received it. (PO's sent electronically and not reaching the intended destination, can cause lengthy delays.)
- Frequently the items requested will ship at different times. If so, we will need to invoice you at the time of
  receipt of each item. Please indicate whether you will accept <u>multiple invoices</u> on (one) Purchase Order, or
  whether you will issue <u>multiple POs</u>, one for each major item.
- 4. Copy the above list of equipment and services, or refer to it in your PO or Letter to confirm what you are buying or not.
- 5. Reference the H.I.R.E. Contract #PC66786, if you are buying on Contract.
- 6. NYS Vendor # 1000008177 (Statewide Financial System SFS)
- 7. Please be sure to note on your PO: "This is a non-cancelable order, and a non-returnable final sale". Rely on the factory's Limited Warranty in the case of any problems.
- 8. Because we are a small business, we would appreciate if you would <u>assure funds are sequestered</u>, <u>encumbered or otherwise set aside</u> so they cannot be diverted by other agencies.

- 9. "Late Payment. Timeliness of payment and any interest to be paid to Contractor for late payment shall be governed by Article 11-A of the State Finance Law to the extent required by law." Taken from page-6 of Terms and Conditions of this H.I.R.E. Contract.
- 10. As a Small Business (Certification #P0317675) we appreciate whatever you can do to expedite payment of your PO on your PO, please indicate how and when you will pay. Payment is due as soon as you accept the Generator and associated equipment as appearing to be in good condition. Since we are supplying equipment only, not installation, our equipment invoice is due when you receive the equipment, without waiting for installation; and there is no retainage of any kind. We also accept most Purchasing Cards, which will not be charged until each item is shipped or the service performed.
- 11. Indicate the Ship-To address, phone number, email and contact person.
- 12. Make sure that your receiving personnel will inspect the shipment for damage. If there is any damage, they MUST have the trucker sign on your copy of the paperwork that the shipment was delivered "damaged". Otherwise, the trucker may deny the claim for damages. Ideally, receiving personnel would also take a digital photo (which can be emailed) of any damage to facilitate the claim. Please call us if there is any damage.
- 13. You are still protected by the factory's Limited Warranty. If you discover any problem at or after installation, please call us so we can help.
- 14. See your Owner's Manual for the required maintenance to keep the Warranty in force.

#### SHIPPING ADDRESS REQUIREMENTS, to avoid the trucker's re-delivery charges:

- -- Transportation is included to the 48 contiguous states, to those locations normally served by tractor trailer or flatbed via land only. Freight to your facility is included to the first or nearest drop-off point and also applies to shipments going to off shore locations. Additional charges for shipping and handling after the first drop off point are at the customer's expense. Unloading, rigging, storage, and installation are the responsibility of the customer and are not included.
- -- Please supply the shipping address. If the delivery point is changed later, there will be a change-of-address charge and possibly a re-delivery charge. If the generator cannot be unloaded at the time of delivery, there will be a re-delivery charge.
- -- Installation Manuals. Genset Owner's Manuals are individually assembled to reflect the exact configuration of each unit and are placed inside the generator enclosure prior to shipping.

#### Methods of unloading the delivery truck

The included prepaid standard shipping for most Generators is in an enclosed truck, such as a tractor trailer. The Generators are loaded lengthwise and must be forked from the end. *Unloading and rigging are the responsibility of the customer*.

- -- Loading Dock Unloading: Using a loading dock is usually the easiest way to unload the Generator. The loading dock can belong to you, your contractor, your rigging company, or to a helpful local business. For Commercial Gaseous Generators larger than 25 kW, Industrial Gaseous and Diesel Generators loaded in an enclosed truck, you will need to supply a fork lift truck with fork extensions to unload the Generator because it will be loaded lengthwise.
- -- Parking Lot Unloading: If the shipping address is a parking lot, <u>you will need to supply the unloading equipment</u>, such as a fork lift truck with fork extensions, or lifting equipment that can get the Generator out of the enclosed truck. (Larger Generators will arrive on a flatbed trailer).
- -- Lifting Precautions: If you want to lift the Generator with your equipment, you will need straps and a spreader bar to avoid deforming the sheet-metal housing.
- Liftgate Delivery: Gaseous Generators (powered by natural gas or propane) of 22 kW and smaller can be delivered to your paved parking lot or driveway by a hydraulic liftgate on the back of a 53-foot tractor trailer IF the paving is an easily accessible commercial location. There is no charge for this service, but "Liftgate Delivery" must be specified on your PO. Liftgate Delivery is not available for diesel Generators or for Generators larger than 22 kW, and is always subject to factory approval.
- -- Alternate Shipping by Flatbed Truck: When not required by the factory (for the largest generators), delivery by open flatbed truck is usually available at extra cost, typically \$1,000-\$5,000 (request a quote). "Flatbed delivery" must be requested when you place your order, and is subject to factory approval.

-- Transwrap Services: An optional shrink wrap (similar to boat wrap) is recommended and available at extra cost (non-Contract) for generators that are shipped on a Flatbed Truck exposed to the outside elements. This includes most diesels as well as gaseous generators above 200kW. Protects from tarp damage, road salt, and grime -- will reduce unwarrantable damage during transportation. Also recommended if you are storing your generator for a period of time prior to installation.

#### **Contact Information:**

- -- Please give us the phone number and name of the person for the trucker to call the day before delivery, to be sure that your personnel are ready to receive the shipment. Include an email address for delivery status updates.
- -- An authorized person must be available during normal business hours to inspect & sign for the Generator.

#### **DETAILS:**

**100kW SD Industrial Diesel Generator** - Generac Industrial Generators are custom configured to meet the specific requirements of each application. Heavy duty engines have proven their performance and reliability in industrial applications. (See the attached HDMPP)

Spec Sheet: http://gens.iccdn.com/generaccorporate/media/library/content/all-products/generators/industrial-generators/diesel/0k5093-a-sd100-6-7l.pdf?ext=.pdf

Specifications are subject to change without notice.

Note: Warranty Activation Requires Generator Installation & Startup within one year of Shipment.

**Multiple Transfer Switches:** There is no limit on the number of open transition, closed transition or bypass isolation switches that can be used within a system. Only one soft load switch can be used.

Life Safety Equipped. Generac Industrial Generators include the equipment necessary, when properly installed, to qualify for the stringent NFPA 110, Level 1, Life Safety applications of the NFPA National Fire Protection Association (see details below).

Life Safety may be required for the following applications, to comply with Code per NFPA-110 (check with your AHJ Authority Having Jurisdiction, such as the local Building Inspector):

- -Elevator
- -Oxygen or life support equipment that requires electricity
- -Fire pump/sprinkler system pump
- -Industrial processes where current interruption would produce serious life safety or health hazards
- -Fire detection and alarm systems
- -Building over 75 feet tall
- -Public Safety communications systems
- -Health care loads greater than 120kW
- -Essential ventilating and smoke removal systems
- -Life safety illumination (i.e. lighting allowing safe egress or exit signs without battery backup)
- -Facility used as an Emergency Shelter (check with your AHJ and your shelter's sponsor, such as the Red Cross).

#### **GTS Transfer Switches:**

100-400A GTS - Automatic Transfer Switches

Spec Sheet: http://gens.lccdn.com/GeneracCorporate/media/Library/content/all-products/transfer-switches/business-transfer-switches/094700000S-A-ATS-100-400-Amp-600-VAC.pdf
Specifications are subject to change without notice.

Generac is the only manufacturer of open transition switches to incorporate the two most common switching methods (inphase and time delay neutral) into a single ATS. Generac's inphase monitor provides safe, fast (160 msec) transfers between two live voltage sources when the source voltages are aligned (within 20°). If voltages are not

inphase within an appropriate time, the system will automatically revert to the time delay neutral transfer. If the inphase function is disabled, our GTS switches utilize a delay in neutral transfer that allows load voltage to decay to a safe level before switching sources.

Generac GTS transfer switches feature status lights that indicate switch position and generator status, a programmable weekly exerciser that can be user-configured to transfer on exercise, independent voltage pickup and dropout adjustments and utility monitoring to protect against utility single phase conditions. Our front access test mode switch allows the entire standby system to be tested in either a normal or fast test mode.

#### WITHSTAND RATING for the Transfer Switch – The Simplest Solution:

- Call the electric utility and get the Withstand Rating for the Service Entrance of the building.
- 2. If your Switch needs a higher Withstand Rating, install a fuse block or a fused disconnect before the Transfer Switch. Click for more details: <a href="http://www.betterpower.us/withstand-rating">http://www.betterpower.us/withstand-rating</a>

#### GENLINK SOFTWARE SYSTEM for Notification, Remote Control & Troubleshooting

#### http://www.generac.com/for-business/business-standby-products/remote-monitoring

- -- Rapid response to trouble calls, without waiting for an on-site visit to be scheduled.
- -- Allows remote troubleshooting by factory techs or installer and monitoring by the owner via
  - o Direct Serial Connection
  - o Phone Line or
  - o Ethernet Connection
- May pay for itself with the first avoided on-site visit
- -- Alarm notification for cell phones, pagers, and remote PCs
- -- Generator usage data, alarm history, and predictive maintenance reminders
- -- Off-site monitoring, controlling, and troubleshooting of multiple Generator systems from any PC
- -- Easier on-site monitoring, controlling, and troubleshooting of the Generator
- Dealer can remotely diagnose problems, modify generator configurations and parameters then dispatch a service truck with necessary parts to quickly correct the problem

#### GenLink Software Kit - Item #0E9062CSRVF1

- -- Includes software and instructions
- -- Includes a laptop connection Cable for on-site work

#### **HEAVY DUTY MAXIMUM PERFORMANCE PACKAGE (HDMPP) – SD Industrial Models**

**SD Industrial Series** generators are designed for the heaviest-duty, highest-reliability applications, including Life Safety. Custom equipment changes can be made. EPA Compliant.

The Contract Price includes a "Heavy-Duty Maximum Performance Package" to make sure that you are able to operate and to accomplish your mission, even in an emergency that takes out utility power.

The Package consists of major upgrades and additions to Generac's base model. Even Generac's base model comes with a long list of equipment that may be optional on other brands.

If these items had to be purchased and installed in the after-market, when the Contract User discovered the hard way that he needed them, it would be far more expensive. And in the meantime, the User would be lacking the additional protection.

#### The included Package comes with ALL of the following items:

<u>Life Safety Equipped</u>. Includes the equipment necessary, when properly installed, to qualify for the stringent NFPA 110 Level 1 Life Safety applications of the NFPA National Fire Protection Association.

<u>Freight</u> to your facility per the section "Shipping Address Requirements" above. <u>Freight is included to the first</u> or nearest <u>drop-off point</u> and also applies to shipments going to off shore locations. Additional charges for shipping and handling after the first drop off point are at the customer's expense. <u>Unloading, rigging, storage, and installation are not included.</u>

<u>Startup.</u> When the installation is complete, a technician visits the location for several hours to verify that the installation was done according to factory requirements, to test many parameters, to adjust them for best performance, and to validate the Warranty.

<u>Training.</u> A factory-authorized technician will **Train Staff** by demonstrating the proper operation and maintenance of the generator during the Startup visit. **Staff learn** by observing and asking questions of the technician during the demonstration.

Outdoor Housing, weather-protective, lockable, finished with the highly-durable\_RhinoCoat™ finish system for superior protection against the elements. Available with Optional Sound Attenuation.

**Superior Paint.** Our textured, powder coat paint process provides consistent coverage and better bonding to seams and exposed edges providing durability and a long-lasting, tough finish.

**Digital H Control Panel:** Offers quick access and simultaneous monitoring of key generator functions with LCD display. Integrated transfer switch controller for GTS or HTS or PSTS transfer switch. RS232 and RS485 ports, CANbus addressable, allowing optional remote operation and troubleshooting via laptop or PC with optional modem, cable, and GenLink Software Kit.

**Digital Control Panel** with LCD display, state-of-the-art programmable H-100, with RS232 and CANbus ports, which allows optional Remote Operation via laptop or PC with optional modem or cable and GenLink Software Kit.

<u>8 Position Load Center</u> is a 125A unit-mounted distribution panel available for all units that utilize H-100, PM-GC or PM-PC control systems. This main lug load center includes all of the circuit breakers required for the coolant heater, battery charger, and other factory-installed optional AC loads within the generator set, and serves as a convenient connection point for the customer's utility feed for these AC loads. All breakers are labeled for specific load circuits. Remote Annunciator Panel with 21 indicator lights & 8 function relay. (Although the 3-light and 5-light panels meet the technicality of being Remote Annunciator Panels, they are much less useful.) This panel mounts in the office of the manager in charge of the generator, "announcing" or telling him in real time whether everything is functioning correctly or if something needs attention. Required to meet NFPA-110. Surface mounting will be supplied unless recessed mounting is specified.

Spec Sheet: <a href="http://www.betterpower.us/s/annunciator-spec-sheet-0604160SSD-dated-april-2014.pdf">http://www.betterpower.us/s/annunciator-spec-sheet-0604160SSD-dated-april-2014.pdf</a>
<a href="Annunciator Manual: http://www.betterpower.us/s/remote-annunciator-manual-09-14-09-0G6960.pdf">http://www.betterpower.us/s/remote-annunciator-manual-09-14-09-0G6960.pdf</a>
<a href="Engine">Engine</a> meets the pollution standards of EPA and is EPA Certified.

**Engine-Run Relay,** factory-installed. When the engine is running, this allows the operation of a safety alarm or indicator, as well as the operation of other equipment, such as cooling louvers.

Fuel Tank for approximately 24-hour run time (usually 24" deep). Includes the sub-base fuel tank mounted under the generator, and also includes the emergency vent that is required for safety. In addition, these are UL142-Listed double-wall fuel tanks for extra protection against the leaks that could trigger a HazMat cleanup.

Fuel-level sender to show how much fuel is in the tank.

**Critical-Grade Muffler** for the quietest operation -- much quieter than the Industrial grade or even the Residential grade -- installed within the housing on 400kW and smaller units.

**Starting Battery,** high-capacity, factory-installed.

<u>Battery Charger</u>, factory-installed high-capacity dual-rate. This uses utility power to keep the battery charged even when the generator is not running. Other generators depend on the generator's own alternator to charge it when the generator is running, like your car battery. But unlike a car battery, the generator battery is constantly using power to monitor its functions and readiness, so it is safer to keep the battery charge topped off with the separate charger.

<u>Battery Heater Blanket</u>, recommended when the ambient temperature goes below 30 F. When used yearly maintenance and/or replacement of the battery will be required.

Main Line Circuit Breaker, factory-installed and UL-Listed. This stops the wires from overheating before they can cause a fire or other safety hazard, and is required to meet UL2200.

<u>Block/Coolant Heater</u> keeps the diesel fuel flowing easily in the winter so that the starting motor is able to start the generator even if the temperature goes below minus 20 degrees.

**Closed Recovery Cooling System.** This closed, pressurized system virtually eliminates the introduction of air into the cooling system. Rust and fluid acidity are minimized, resulting in longer engine life.

**Isochronous Governor.** Constant speed control provides faster response to block loads and a more consistent output frequency. All generators utilizing PowerManager® control systems feature an isochronous governor.

**Vibration Isolation.** Standard vibration isolators virtually eliminate transmission of vibration from the unit to the mounting surface.

Automatic Alarms & Shutdowns. Generator functions are constantly monitored through a protective system that features solid state circuitry for reliability and long life. NFPA 110 required warnings and alarms provide alerts for a variety of safety and operational concerns. The system automatically shuts down in response to certain critical conditions such as high engine temperature, low coolant level, etc. All generators utilizing PowerManager® control systems meet NFPA 110 requirements for warnings, alarms and alerts.

Advanced Wire Harness Design with Waterproof Connectors. Our wire harness design assures reliable, repeatable interconnection between circuit components. Special sealed connectors protect against moisture, dust and environmental damage.

**Generac-Manufactured Alternators.** Our revolving field alternators are fully-insulated and self-ventilating. They feature higher temperature Class H insulation, but are designed to operate at lower, Class F temperature levels for longer life. Oversized alternators are available on many models for additional motor starting capacity.

**Solid-State Sensing and Starting Control.** Provides the ultimate in engine protection. The magnetic pickup senses overspeed, automatically shuts down the engine, disconnects the starter motor and prevents re-engagement. The system also provides cyclic cranking for improved starting reliability and cranking termination for starter motor protection.

**Solid-State, Frequency Compensated Voltage Regulation (V/F).** Provides fast, optimized response to changing load conditions. Maximum motor starting capability is assured by electronically torque-matching the surge loads to the engine.

**Permanent Magnet Excitation (PME).** Provides sustained short circuit current for breaker coordination. Increases motor starting capabilities and enhances performance when load-induced harmonics are present. Standard on 150 kW and larger. Optional on smaller gensets.

#### **120V GFCI & 240V Outlet**

Easy To Service - All service points are located at the perimeter of the frame for easy access.

**UL-2200-Listed** - All Generac standby generators are UL 2200 listed and our transfer switches are UL 1008 listed. UL listing verifies the kilowatt ratings of our generators, and is your assurance that Generac standby systems meet the highest safety, endurance, and performance standards.

Made in USA - Generac generators are made in the United States by Generac Power Systems Inc. We design and manufacture all of the major components including the alternators, controls and enclosures. This unprecedented degree of control ensures that Generac products are built to the highest standards for quality, reliability and durability.

Specification Sheet lists additional items included. Specifications subject to change without notice.

#### **MANAGEMENT OVERVIEW**

**Just imagine trying to do your job in an emergency situation** -- when your work is desperately needed, but your electricity went out, possibly as part of the emergency.

An automatic, permanently-installed Generator for your facility is called an Emergency Standby Generator. During an electricity outage, it automatically supplies electricity for as long as you need it -- for weeks, if necessary -- but it is not intended to replace the utility permanently. You also need an ATS or Automatic Transfer Switch, which is the part that switches back and forth from utility power to Generator power as needed.

#### Without a Generator:

- Staff would not have lighting, heat, air conditioning, water, sewage.
- Failed communications phones, internet, TV could lead to mission failure.
- Overheating could damage computers and electronic equipment.
- Electronic valves and controls could fail, resulting in damage.

- Inoperable sump pumps could allow flooding and ruined equipment.
- Inoperable refrigerators and freezers could allow expensive medicines and food to spoil.
- Water pipes could freeze and burst in a prolonged winter outage.
- The security system could stop protecting your facility when its battery dies.

#### The H.I.R.E. Contract makes it much easier to get your Generator:

- In many cases, you no longer have to spend your time on the hassle, delays, and expense of the bid process.
- You may not need to hire an engineering firm to prepare bid specifications, or to pay for lawyers or advertising.
- The State has already done the shopping, negotiated the pricing, and checked references for you.
- In many states, all levels and types of government operations and even non-profits can use the Contract.

#### Hundreds of Generators are included on this H.I.R.E. Contract:

- Large permanently-mounted automatic "Emergency Standby" Generators, to run large or small buildings.
- Mobile (towable) Generators to bring power where most needed in an emergency.
- Large Mobile Containerized Generators up to 2 megawatts.
- Mobile Light Towers which can fully illuminate up to seven acres in all kinds of situations.
- Portable Generators to use at emergency sites.
- Generators can be fueled by natural gas, propane, diesel fuel, or gasoline.
- Sizes available from 800 watts to 9,000,000 plus watts.

Questions? Please call or email me with any questions or concerns.

We look forward to serving you!

Thank you - Dave

**Subject:** RE: 12-2-15 - CWD 4 Generator purchase.

Rich,

I reviewed the YTD expenses for CWD #4 and in order to fund this purchase we would have to do a budget revision transferring approximately \$28,000 from other expense lines and the remainder \$6,701 would have to come from the unreserved fund balance.

Subject: 12-2-15 - CWD 4 Generator purchase.

Mary Ann,

Are there sufficient funds (34,701.00) for the purchase of a new generator at CWD 4?

Thanks

Supervisor Kenneth Schmitt Town of Carmel 60 McAlpin Avenue Mahopac, NY 10541

Work Session	12/9/15
☐ Agenda	

Dear Supervisor Schmitt,

The Putnam County Rules, Enactments, & Intergovernmental Relations Committee held a meeting on September 17, 2015 where information regarding a County-wide Taxi & Limousine Commission was explored. Present at this meeting were President of the Putnam County Chambers of Commerce and member of the Putnam County Transportation Advisory Council, Bill Nulk and Owner of Carmel Taxi, Ruth Ayala-Quezada who provided a first-hand interpretation of how beneficial a County-wide Commission would be.

Currently, under New York State Law the Towns and Villages are authorized to regulate taxis and limousines, the County cannot. There is no County-wide regulation on who can provide public transportation and companies are not required to perform background checks on their drivers. Ms. Ayala-Quezada informed the Committee that people often go to the train stations and put a simple "Taxi" sign in their windshield and transport passengers getting off the trains to their destination. She alerted the Committee that these unscrupulous taxi services often charge the customer a very high rate because there is no regulation. Also, in regards to consumer safety, a County-wide Commission would regulate driver's licenses and require photo ID and citizenship. Background checks would be performed, which would provide insight to any traffic infractions or criminal infractions that may prohibit the operation of a vehicle. Safety and maintenance checks of the vehicles would be performed as well, further increasing the protection of the customers. This Commission would also provide reciprocity between Putnam County and Westchester County.

The Committee was in agreement that a County-wide Commission would provide immense benefits to both the operators of taxi and limousine services and the

consumers within Putnam County. In order to create a County-wide Taxi & Limousine Commission, Putnam County must be granted authorization by the New York State Legislature. Authority is unlikely to be granted unless the Towns and Villages are willing to accede their authority to the County. Therefore, if the Town of Carmel is in agreement that this County-wide regulation is needed, I, as Chairwoman of the Rules, Enactments, & Intergovernmental Relations Committee respectfully request that a letter granting authority for the County to move forward and request permission from New York State be sent to the Legislative Office as soon as possible and no later than January 31, 2016.

Thank you for your attention to this important matter. If you have any questions or concerns, please do not hesitate to contact the Legislative Office.

Sincerely,

Toni Addonizio

Sheriff Donald B. Smith
Putnam County Sheriff's Department
3 County Center
Carmel, New York 10512

Dear Sheriff Smith:

We, the Town Board of the Town of Carmel (the "Town Board"), are writing to memorialize the discussions held over the last several weeks between members of the Town Board, Carmel Police Chief Michael Cazzari, and you and other members of the Putnam County Sheriff's Department regarding the new scope of services the Sheriff's Department's intends to provide the Town of Carmel (the "Town") in 2016 and beyond. Our hope is that this letter will serve as (1) an outline for logistical discussions in the coming weeks, as well as (2) the basis for our collaborative arrangement in the coming years. Furthermore, the Town Board appreciates all past, current and especially future work that the Sherriff's department provided the residents of the Town of Carmel.

The Town Board understands that, beginning January 1, 2016, the Sheriff's Department will assign a 24/7 Sheriff's Department patrol within the Town as follows: (1) to Sector A in January, May, and September; (2) to Sector B in February, June, and October; (3) to Sector C in March, July, and November; and (4) to "detail" duty in April, August, and December. Chief Cazzari will be responsible for providing specific assignments to Sheriff's Department personnel assigned to "detail" duty.

After April of 2016 the Town Board and Sheriff's Department, will discuss whether it is appropriate and beneficial to continue assigning Sheriff's Department personnel to "detail" duty. If the parties agree such detail duty is not appropriate, the Sheriff's Department patrol will rotate only between Sectors A, B, and C on a monthly basis (i.e., four three-month rotations per year as opposed to three four-month rotations as described above).

As discussed during the November 23<sup>rd</sup> meeting, the parties understand that Sheriff's Department personnel assigned to the Town will not leave the boundaries of the Town to assist other Putnam County municipalities, except under extreme circumstances. You, or your designee, intend to discuss such extreme circumstances with Chief Cazzari prior to any temporary reassignment of Sheriff's Department personnel.

The parties agree they will each take full responsibility of their assigned Sectors regarding patrol, enforcement and investigative duties. For example, if a crime is committed in Sector A in January 2016 that requires further investigation, a Sheriff's Department Investigator,

as opposed to a Town of Carmel Detective, will be responsible for such investigation. However, the Sheriff's Department and Town of Carmel Police Department ("Police Department") will work collaboratively as appropriate.

Notwithstanding the Sector ownership described above, the parties agree that "walk-in" complaints will be handled by the Department receiving the complaint. For example, if a citizen walks in to Police Department headquarters to file a complaint relating to Sector A in January 2016, the Police Department will be responsible for handling the complaint even though the Sheriff's Department would be assigned that Sector at that time. Again, though, the Sheriff's Department and Police Department will work collaboratively as appropriate.

Also notwithstanding the understandings set forth above, at this point, the parties believe the first available or closest patrol should respond to 911 calls, regardless of Sector assignment. However, the parties will continue to discuss the 911 response system in order to determine the best way to serve the Town's citizens.

The Board thanks you and your Department for your consideration and cooperation, Sheriff. We look forward to working together to better serve the people of the Town of Carmel for years to come.

Very truly yours,

TOWN BOARD FOR THE

TOWN OF CARMEL

Frank Lombardi

Town of Carmel Deputy Supervisor

Police Chief Michael Cazzari Cc:

Undersheriff Peter Convery
