RE: Jurisdictional Review: Sayed A. El Shakry-Fair Street – Replace culvert/Clear debris in stream
Project ID: 5517
Town of Carmel, Putnam County

Dear Mr. Greenberg:

Based upon our review of your inquiry dated November 10, 2014, we offer the following comments:

DEPARTMENT JURISDICTION

Protection of Waters

The following stream is located within or near the site you indicated:

Name	Class	DEC Water Index Number	Status
Michael's Brook tributary	[C]	H-31-P44-23-P59-5-4	[Non-protected]

A Protection of Waters Stream Disturbance permit is required to physically disturb the bed or banks (up to 50 feet from stream) of any streams identified above as "protected." **A Stream Disturbance permit is not required to disturb the bed or banks of "non-protected" streams.**

If a permit is not required, please note: the project sponsor is still responsible for ensuring that work shall not pollute any stream or waterbody. Care shall be taken to stabilize any disturbed areas promptly after construction, and all necessary precautions shall be taken to prevent contamination of the stream or waterbody by silt, sediment, fuels, solvents, lubricants, or any other pollutant associated with the project.

Please contact this office if you have questions regarding the above information. Thank you.

Sincerely,

Jean McAvoy
Region 3, Division of Environmental Permits
Telephone: 845/256-3165
Email: jean.mcavoy@dec.ny.gov

NOTE: Regarding erosion/sedimentation control requirements:

Stormwater discharges require a SPDES Stormwater permit from this Department if they either:

- occur at industrial facilities and contain either toxic contaminants or priority pollutants OR
- result from construction projects involving the disturbance of 5000 square feet or more of land within the NYC Department of Environmental Protection East of Hudson Watershed or for proposed disturbance of 1 acre or more of land outside the NYC DEP Watershed

Your project may be covered by one of two Statewide General Permits or may require an individual permit. For information on stormwater and the general permits, see the DEC website at <http://www.dec.ny.gov/chemical/8468.html>. If this site is within an MS4 area (Municipal Separate Storm Sewer System), the stormwater plan must be reviewed and accepted by the municipality and the MS-4 Acceptance Form must be submitted to the Department. If the site is not within an MS4 area and other DEC permits are required, please contact the regional Division of Environmental Permits.
