Re: Request for Waiver

Dear Supervisor Schmitt:

I am writing to once again formally request that the Town of Carmel Town Board consider the waiver of the provisions of Chapter 104 of its Town Code, which require that a permit be acquired for the use and operation of sound devices and equipment at the Putnam County Golf Course in connection with its Friday Night Barbeques, which will be held through October of this year (a schedule of the season's anticipated live music events is attached).

I know that the continued success of this County-owned course is of paramount importance to us all, in that the taxpayers of Putnam County are the ultimate beneficiaries of this golf and banquet facility. The waiver of the permit requirement, along with the requirement that the County pay a fee for such a permit, will obviously assist the County in becoming as successful as possible in its endeavor to provide enhanced services to its residents.

Thank you for your consideration and cooperation.

Very truly yours,

A handwritten signature in blue ink that reads "MaryEllen Odell".

SUBJECT: Request for Authorization to Pay for the Wet Tap Main Excavation at Airport Park

I am requesting authorization to pay the invoice for excavation of the wet tap main at Airport Park. I have attached the invoice from Ed Kuck Excavating Inc. in the amount of \$5,674.60 along with the Town of Carmel Vendor Claim Form. All labor was performed at the NYS prevailing wage rate and I have attached the contractor's US Dept. of Labor payroll sheets as well.

This payment requires a Resolution. Please add this to the July 8, 2020 Town Board Work Session agenda and contact me with any questions.

While completion of Form WH-347 is optional, it is mandatory for covered contractors and subcontractors performing work on Federally financed or assisted construction contracts to respond to the information collection contained in 29 C.F.R. §§ 3.3, 5.5(a). The Copeland Act (40 U.S.C. § 3145) contractors and subcontractors performing work on Federally financed or assisted construction contracts to "furnish weekly a statement with respect to the wages paid each employee during the preceding week." U.S. Department of Labor (DOL) regulations at 29 C.F.R. § 5.5(a)(3)(ii) require contractors to submit weekly a copy of all payrolls to the Federal agency contracting for or financing the construction project, accompanied by a signed "Statement of Compliance" indicating that the payrolls are correct and complete and that each laborer or mechanic has been paid not less than the proper Davis-Bacon prevailing wage rate for the work performed. DOL and federal contracting agencies receiving this information review the information to determine that employees have received legally required wages and fringe benefits.

Public Burden Statement

We estimate that it will take an average of 55 minutes to complete this collection, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. If you have any comments regarding these estimates or any other aspect of this collection, including suggestions for reducing this burden, send them to the Administrator, Wage and Hour Division, U.S. Department of Labor, Room S3502, 200 Constitution Avenue, N.W. Washington, D.C. 20210

RE: 2019 Tree Bid Renewal – 1 year

Michael,

As we discussed, there were no tree-bids received for the 2020 Spring Bid. Therefore, per our conversation, if you are willing to renew your 2019 for a period of one-year bid, as awarded by the Town Board on April 17, 2019, sign below.

If you have any questions, please call the office: 845.628.7474.

Regards,

Michael Simone
Superintendent of Highways

I, Michael A. Naglieri, authorize the renewal of the 2019 Tree Bid for a period of one-year, as awarded by the Town of Carmel Town Board on April 17, 2019. Furthermore, I am submitting an updated insurance certificate.

**RESOLUTION AUTHORIZING THE AWARDING OF BIDS
FOR MISCELLANEOUS HIGHWAY DEPARTMENT MATERIALS AND SERVICES**

WHEREAS the Town Board of the Town of Carmel has previously authorized advertisement for the solicitation of bids for various highway materials and services for the Town Highway Department, and

WHEREAS such bids were received and opened and Highway Superintendent Michael Simone has recommended the awarding of the bids (after equalizing all FOB bids based on distance to the Town Highway Department yard),

NOW, THEREFORE, BE IT RESOLVED, that the Town Board of the Town of Carmel hereby awards the bids for the purchase of various highway materials and services to the lowest responsible bidders who met specifications at the unit prices and material types as contained in the memo of Michael Simone, dated April 9, 2019, which is attached hereto, incorporated herein and made a part hereof.

Subject: RE: Capital Equipment Purchase Quotes

After review there are funds available in the following lines for the Town Board to consider these purchases:

- Highway machinery capital line (951.5130.24 - includes 2020 Machinery Borrowing authorization) - \$478,057.47
- Machinery repair capital expense line (500.5130.0041 - includes carryover of \$190,000 from 2019) - \$334,105.00

Thank you....Mary Ann

Subject: Capital Equipment Purchase Quotes

Hey Girl! 😊

See the attached per your discussion with Michael.

As you probably know, Anne's deadline for the Worksession is tomorrow at 2:00.

Enjoy....

Ben Funk is please to offer a 2021 International HV507 SFA 4x4 cab chassis. The price includes extended warranties for towing, vehicle, engine/aftertreatment and transmission. This price also includes upgrades including painted aluminum air tanks, stainless steel oil pan, stainless steel transmission lines, right side spring buildup and relocating the air solenoid. The truck proposal is attached. The quote for the Tenco equipment installed by Amthor's is also attached. This price is using the Onondaga Bid #8996. Thank you for allowing Ben Funk to quote pricing for your truck. If you have any questions, please call.

2021 International HV507 SFA 4x4	\$131,767.76
Tenco equipment installed by Amthor	\$124,245.20
Total	\$256,012.96

Respectfully submitted,

John McCormack

110719-CNH

Solicitation Number: RFP#110719

CONTRACT

This Contract is between **Sourcewell**, 202 12th Street Northeast, P.O. Box 219, Staples, MN 56479 (Sourcewell) and **CNH Industrial America LLC**, 700 State Street, Racine, WI 53404 (Vendor).

Sourcewell is a State of Minnesota local government agency and service cooperative created under the laws of the State of Minnesota (Minnesota Statutes Section 123A.21) that offers cooperative procurement solutions to its members. Participation is open to all levels of governmental entity, higher education, K-12 education, nonprofit, tribal government, and other public entities located in the United States and Canada.

Vendor desires to contract with Sourcewell to provide equipment, products, or services to Sourcewell and its Members (Members).

1. TERM OF CONTRACT

- A. **EFFECTIVE DATE.** This Contract is effective upon the date of the final signature below. 1/2/20
- B. **EXPIRATION DATE AND EXTENSION.** This Contract expires December 30, 2023, unless it is cancelled sooner pursuant to Article 24. This Contract may be extended up to one additional one-year period upon request of Sourcewell and with written agreement by Vendor.
- C. **SURVIVAL OF TERMS.** Articles 11 through 16 survive the expiration or cancellation of this Contract.

2. EQUIPMENT, PRODUCTS, OR SERVICES

- A. **EQUIPMENT, PRODUCTS, OR SERVICES.** Vendor will provide the Equipment, Products, or Services as stated in its Proposal submitted under the Solicitation Number listed above. Vendor's Equipment, Products, or Services Proposal (Proposal) is attached and incorporated into this Contract.

All Equipment and Products provided under this Contract must be new/current model. Vendor may offer close-out or refurbished Equipment or Products if they are clearly indicated in Vendor's product and pricing list. Unless agreed to by the Member in advance, Equipment or Products must be delivered as operational to the Member's site.

Alamo Flail-Arm

FORM E
CONTRACT ACCEPTANCE AND AWARD

(Top portion of this form will be completed by NJPA if the vendor is awarded a contract. The vendor should complete the vendor authorized signatures as part of the RFP response.)

NJPA Contract #: 052417-AGI

Proposer's full legal name: Alamo Group (TX) Inc.

Based on NJPA's evaluation of your proposal, you have been awarded a contract. As an awarded vendor, you agree to provide the products and services contained in your proposal and to meet all of the terms and conditions set forth in this RFP, in any amendments to this RFP, and in any exceptions that are accepted by NJPA.

The effective date of the Contract will be October 2, 2017 and will expire on October 2, 2021 (no later than the later of four years from the expiration date of the currently awarded contract or four years from the date that the NJPA Chief Procurement Officer awards the Contract). This Contract may be extended for a fifth year at NJPA's discretion.

Do NOT use the following contract details as there are distinctions for each state adoption. Please contact your Account Manager noted below for further guidance.

Quotes and Purchase Orders:

Quote generation and customer Purchase Order processing are handled by the direct-selling dealer with approved by John Deere Construction Retail Sales (JDCRS). Approval for dealer-direct selling requires agreement to uphold the Sourcewell Terms and Conditions and to facilitate contract compliance as needed. Dealership must submit a signed agreement to JDCRS and receive approval from JDCRS prior to selling direct. Verify current eligibility to sell direct by contacting your JDCRS Account Manager noted below.

If not an approved direct-selling dealer, contact your JDCRS Account Manager to sign up for maximum dealer benefit:

Division 3 (Mostly Southeastern U.S.) Adam Holdt, (309) 314-7344
Division 4 (Northeastern U.S. and all of Canada) Scott Metzdorf, (309)765-0294

MEMORANDUM

To: Carmel Planning Board
From: Richard J. Franzetti P.E. Town Engineer 
Date: March 11, 2020
Re: 55.12-2-5 VIP Car Wash Bond Return

In response to the attached request by the referenced applicant, a representative of the Engineering Department (Department) performed a field inspection of the referenced property in February 14, 2020 and on March 11, 2020 to evaluate the current status of the site construction, for the purpose of determining whether a bond return was warranted. The results of the site investigation are presented below.

The applicant posted a bond in the amount of \$134,000.00 on August 11, 2015. Based upon our inspection all the site improvements required pursuant to the Board's Site Plan approval have now been completed.

On this basis, this Department recommends that the bond of \$134,000.00 be released.

We trust that this is adequate for your needs. If you have any questions, please don't hesitate to contact me.

Re: CSD#2 VFD Electric Cabinet

During an inspection of the Carmel Sewer District #2 (CSD#2) facility it was identified that the electric cabinet which powers and controls the variable frequency drives (VFD) for the return sludge pump was rusted and in need of replacement.

Due to electrical safety concerns, Inframark, the operators of CSD 2, was advised by the Engineering Department (Department) to have the cabinet replaced. This unit an original piece of equipment and is ~25 years old and the life expectancy of the new unit is ~25 years.

Inframark requested and received the following quotes for purchase and installation of this electric cabinet, with wiring and controls:

- Owens Electric \$10,356.00
- Napp Electric \$14,659.00
- R&R Electric \$15,625.00
- TAM Enterprises \$25,397.00

This Department recommends the quote from Owens Electric be accepted at a cost of \$10,356.00.

Per the attached there are sufficient funds to make this purchase.

This Department respectfully requests that this request be placed on the next Town Board work session.

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Good afternoon Donna and Richard,

Please find attached an updated P.O. Request for CSD 2 for a VFD electrical box for Pump House 2. Our original P.O. was granted to Napp Electric, however they had submitted an incorrect quote. We have received their corrected quote and so are resubmitting with 4 different quotes. Napp is no longer the lowest bidder. Please let us know how to proceed. I am thinking we will need to cancel the old P.O. and submit for a new one?

Thanks,
Carrie

MEMORANDUM

To: Carmel Town Board

From: Richard J. Franzetti P.E. Town Engineer 

Date: June 24, 2020

Re: CWD#2 High Lift Pump

Inframark, the operators for Carmel Water District # 2 (CWD 2), has advised the Engineering Department (Department) regarding the status of the high lift pumps used at the water treatment plant (WTP).

There are four (4) high lift pumps at the facility, three (3) are in service and the fourth failed in April and after being inspected it was determined that it cannot be repaired.

The three (3) in service are two (2) 75 HP and one (1) 100 HP. The 100 HP pump has a slight vibration/wobble and will need to be repaired. However, until a new unit is purchased and installed this unit in service cannot be taken off line as it would disrupt water service.

These pumps, when new, function and operate at approximately 1,000 gpm. However due to age the older pumps operate in the 300 gpm range and only one of the pumps operates at the 1,000 gpm range. During times of low demand this new pump is operated and can keep up with demand. However, during times of high demand additional pumps are needed and while able to keep up with high demand do not do so efficiently.

It should be noted that this Department did receive a call from PC DOH regarding their concern about this unit during recent routine walk through at the facility.

Inframark recommended the purchase/installation of a new high lift pump and requested and received the following quotes:

<u>Vendor</u>	<u>Cost</u>
S.B. Church	\$35,900.00
TAM enterprises	\$39,710.00
All Makes Pump	No Quote provided

Inframark has indicated that the new high lift pump has a life expectancy of ~20 years.

This Department spoke with the Town of Carmel Comptroller and she indicated that there are sufficient funds in the CWD 2 budget for this work (see attached).

This Department requests that the Town Board authorize the purchase and installation of the new high lift pump, from S.B. Church cost of \$35,900.00

Email Thomas.Brann@Inframark.com
Cell 845-565-6182

From Jim Duncan
Email Duncan.James@wseinc.com
Cell 203-627-8006

Dear Tom:

With this email we wish to provide you with our proposal for updating one of the turbine pumps at the Carmel Water District #2 plant. This would be the closest pump on your right as you come into the building though the pedestrian door on the northeast side of the building. This pump has a broken motor shaft and the 75-horsepower motor has been removed.

We understand that you would like a larger 100-horsepower pump installed here. We have selected a Goulds turbine pump designed to deliver 1200 gallons per minute at 270 feet total discharge head for this application.

At this installation, a pump with a total discharge head of 270 feet would deliver about 110 psi at the top of the pump. We would ask that you confirm that this pressure output is still correct. This is the discharge pressure of the turbine pumps that we installed here several years ago, but we ask that you confirm it since the hydraulics of the system may have changed since then.

We would remove and dispose of the existing pump and provide the new pump, motor, discharge head, and column/ shaft so that the total length of the pump below the top of the pier would be 12 feet. We would modify the pier to accommodate the new pump and provide new piping to connect the pump to the check valve on the pump discharge line.

We would provide a new 100-horsepower inverter duty rated vertical hollowshaft motor. The motor would be equipped with insulated upper bearing bracket and grounding ring and would be set up for 460-volt three phase power. With an inverter duty rated motor, the pump would be compatible with a variable speed drive should you ever choose to provide one.

The proposed motor would have standard windings. I believe that special windings were required here several years ago but modifications to the plant may have been done since then to allow for the use of standard windings. We ask that you contact your electrician for confirmation of the winding requirements of the motor.

We would ask that you have your electrician wire upgrade the starter, fuses, and other electric apparatus as needed, and wire the new motor once we have installed the pump. After the motor is connected, we would do startup and measure vibration at the pump head and motor.

We should be able to remove the old pump in short order, and then get the new one on order.

Your cost for the work described would be \$35,900. We would invoice for \$4500 upon removal of the old pump and for the balance upon completion of the project.

To authorize this work, please provide a purchase order or sign and return this proposal.

Thank you for asking us to quote on this project. If you have any questions, please feel free to call. We hope to serve you.

Very truly yours,

Jim Duncan

Importance: High

Supervisor Schmitt and Town Board members,

Please be advised that the attached request came from Inframark regarding the high lift pump at the CWD 2 plant. This is a critical piece of equipment that supplies water to the district.

There are four (4) high lift pumps at the facility, three (3) are in service and the fourth failed in April and after being inspected it was determined that it cannot be repaired.

The three (3) in service are two (2) 75 HP and one (1) 100 HP. The 100 HP pump has a slight vibration/wobble and will need to be repaired. However until a new unit is purchased and installed this unit in service it cannot be taken off line as it would disrupt water service.

Please note that I did receive a call from PC DOH regarding their concern about this unit during recent routine walk through at the facility.

Due to the critical nature of this piece of equipment I am requesting a PO be issued for this unit and will direct Inframark to order the pump.

I will present this as a formal memorandum to the Board at the July 8, 2020 work session.

Subject: CWD 2 Hi lift water pump P.O request

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Good morning Rob,

The highlift pump we are replacing had a significant failure at the motor and the pump. The pump and motor are totally destroyed as the top bearing at the Cupler had failed this happen months ago it literally melted down the steel on the pump shaft and the electric motor. I shared this information

with the town at that time.

It's for more cost effective and beneficial to the town to go to the 100 horsepower motor and pump to get the volume of water that the community needs. The price is negligible between the 75 hp and the 100 HP it recommended by all the contractors that made site visits. A different CWD 2 pump was replaced a few years ago and was increased from 75 to 100 hp.

More than likely we're going to add a VFD to the new installation. I'd like to get the pump ordered because there's a six week lead time on this pump. The pandemic event was slowing us on getting contractors out into the field. I'm going to get pricing for the electrical aspect of it in the near future more than likely using a local electrical contractor. I'm just trying to be very proactive as the higher summer demand is now upon us. The current 100 hp pump in the building is currently working but it has developed a slight wobble which is concerning were using it sparingly as possible currently. I'd like to have a new pump installed and up and running then we can pull out the other 100 hp Pump to see why it's slightly out of balance and have it Reconditioned or repaired accordingly but that would be down the road. Right now my biggest concern is making sure that we can supply water to all the residents as needed.

Please consider this information and authorize the purchase order if possible because I'd like to move it along I really try and avoid an emergency which will be significant in nature.

Please call me to discuss in greater details difficult to put all aspects of this conversation into an email.

Tom Brann

TB,

With regard to the attached request, we need the following information.

1. Is the pump no longer functioning
2. Why are we increasing from 75HP to 100 HP. What is the cost difference between the two.
3. Did you get a price quote to see if it would be worth it to do the VFD now
4. Do you have any quotes to do the electric work. We will need to have that so we have a clear picture of the total expenditure.

Subject: 6-15-20 -- P.O. Request - Town of Carmel - CWD2 - Turbine Pump

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Good afternoon Donna,

Please find attached a P.O. Request for CWD 2 for a replacement turbine pump. This is a priority request, as it is a critical component in the production of water and could become an emergency if we wait too long.

Please let me know if you need any further information. Thank you very much for your assistance.

Best,

Carrie

Rich,

There are sufficient funds in the operating budget for this expense. However, I will have to submit a budget revision request to transfer funds to the equipment line to encumber this expense.

Thanks,

Donna Esteves

Donna

Please issue a PO for this – also please advise if there are sufficient funds in the budget.

Please note that I did receive a call from PC DOH regarding their concern about this unit during recent routine walk through at the facility.

MEMORANDUM

To: Carmel Town Board

From: Richard J. Franzetti P.E. Town Engineer 

Date: June 30, 2020

Re: Emergency Repairs/Services

This memorandum is being presented to the Town Board to advise the Board of emergency invoices that were submitted for payment in excess of \$5,000.00 for services rendered. The following provides a brief a summary of the work that was performed.

- CSD2 Jetting Services

On May 29, 2020, Inframark, the operator for the CSD 2 alerted the Engineering Department that TAM Enterprise was called to clean (2) pump stations. Attached is the invoice in the amount of \$7,320.75.

- Carmel Water District 2 Curb Box Replacement – 29 & 31 Fowler Ave

On June 23, 2020, Ed Kuck Excavating was called in to dig up and replace (2) new curb boxes, backfill and restore the area. Attached is the invoice in the amount of \$5,347.71.

We request that this memorandum be put into the agenda as a matter of record.
