

## Meter Install Project

Please be advised that the water meter replacement project has commenced

Notice letters have been sent out to residents in various water districts.

All property owners must have their meters replaced as part of this program.

No more than three (3) letters/notices will be issued per account.

In the event the 3<sup>rd</sup> attempt goes unanswered a meter will be installed outside, in a meter pit in the lawn. The added expense for this will be billed to the account.

**Please arrange for your water meter to be replaced.**

You may contact National Metering Services, Inc. at 1-888-448-0009 to arrange a time/date for the replacement

A list of Frequently Asked Questions is provided on the Town Web page at <https://www.ci.carmel.ny.us/engineering/news/water-meter-installation-faqs>

**Help us make this project a success!!**
